

VT. SHOULD OWN NATION'S COAL MINES?

For Martine of N. J. Advocates This Idea to Conserve Supply

ARMED GUARDS PLAN TO CAUSE MOST OF VIOLENCE IN STRIKE DISTRICTS, IT IS BELIEVED

WASHINGTON, Jan. 15.—Governor Martine of New Jersey today proposed to the United States senate a bill which would give the federal government authority to employ armed guards in the coal strike districts. The bill is intended to prevent the violence which is being caused by the strike.

Guards Caused Trouble.

There was delay in distribution of coal to the strike districts, the senator said, "I do not attempt to suppress the general delivery to all the patrons of the coal fields. The presence of armed guards, however, naturally excited bitter feeling and their presence cannot be too strongly condemned. The employment of armed guards in the coal fields, however, naturally excited bitter feeling and their presence cannot be too strongly condemned.

Barriers on Barbarism.

has blessed West Virginia with its hand. Here about all seemed peace, plenty and happiness. On the contrary, however, in the coal fields, there was a spirit of malice and hatred, and the country through the eyes of the true conditions may be wrong. I charge that the hired bodies of men by private owners and other corporations, using steel armored trains, guns and bloodhounds on the men, women and children is a removal from barbarism. The owner of a great section of the state of West Virginia, as the witness stand that he got his per ton royalty he required further.

Coal Is Necessary.

Under our civilization is a coal. This great commodity can be obtained in a pound, continued on Page Three.)

HOT-MENTIONED IN THE U. S. SENATE

essives in Pennsylvania Conclude Two-Day Session

HISBURN Pa., Jan. 15.—Pennsylvania Progressive club, the 1914 campaign was today by adopting resolutions for their principles, but in the morning of a suggestion for a nomination for state senator in November. Among the nominees were James B. Gifford, secretary of the Interior, and a Gifford Pinchot and several congressmen. Resolutions, which were adopted, discussed a proposition for the legislative plank of the 1912 demand amendment women's employment law so as to give a nine-hour day for women. The resolutions also provided for a constitutional convention to be held in 1914. The resolutions also provided for a constitutional convention to be held in 1914.

INTERVENTION IS SOUND TO COME GILLETTE'S EDIOTS WAR WITH MEXICO

Scores Wilson Policy and Secretary Bryan; Villa Back at Chihuahua

WASHINGTON, Jan. 15.—Intervention in Mexico as the only result of the present policy of the United States was predicted in the house today by Representative Gillette, Republican of Massachusetts during the course of a war speech in which he assailed Secretary Bryan.

Recognition of Huerta early in the Mexican trouble, Mr. Gillette said, would have offered the best chance of quieting the disturbance. "When the war comes," he said, "it will be no excuse that the secretary of state has delivered brilliant speeches in favor of peace. An oratorical glorification of peace is not sufficient atonement for a policy whose legitimate and logical result is war."

Scores Secretary Bryan.

"I think when our secretary of state accepted that distinguished position we had a right to expect from his painstaking and assiduous devotion. His antemortem ought to have been thronged with those ready to throw light on his new problems rather than with office seekers and politicians. The country needed more that he should read international law lectures than deliver chautauqua lectures. He has apparently deemed the state department rather a sinecure and a reservoir of patronage than a field of duty which required earnest attention and persistent application."

No Change in Policy.

WASHINGTON, Jan. 15.—There has been no change in the policy of the United States in regard to Mexico, today by Secretary Bryan to the members of the diplomatic corps who called upon him. The foreign representatives, noting the depressing effect upon Mexican bonds held by citizens of their countries on the default of the semi-annual interest payments, had inquired as to what action the United States would take in view of the new conditions.

The Secretary's Callers Inferred that this collapse of Mexican credit.

had been fully expected by the administration and that Mr. Bryan was not in any sense apprehensive of foreign interference in the working out of the American plans. It was made evident that no thought has been given to intervention by the United States between the Mexican factions.

From Hermosillo, it is reported today that orders had been promulgated by General Carranza that no interference should be given Americans or their properties.

Villa Back at Chihuahua.

CHIHUAHUA, Mexico, Jan. 15.—After his decisive victory at Ojinaga from which place he drove Gen. Salvador Merced's federal army into the United States, Gen. Francisco Villa, the rebel military chief, returned here today with his army. He gave directions for the early departure of his troops southward with a view of attacking the federalists about Terreon and of carrying on the revolution in the southern states.

With General Villa were Gen. Treviño and other federal forces.

(Continued on Page Four.)

Winter Same as Spring

Mercury Registers 60

A warm wind that reached a maximum velocity of 40 miles an hour early yesterday morning brought an unexpected rise in temperature yesterday and all winter heat records were broken when the thermometer climbed to 60 degrees above zero at noon. At 6 o'clock yesterday morning the temperature was 51 and throughout the day it did not fall below 55.

The wind melted much of the snow that still remains from the storm of December 3 and 4, especially in the mountains. All the mountain streams were rushing torrents yesterday.

Death Separates Twins for First Time in the 72 Years of Their Life

LOUISVILLE, Ky., Jan. 15.—Death today separated Daniel H. and Samuel A. Harris of this city, twin brothers and box in companionship throughout the 72 years of their lives. The Harris brothers were found Wednesday, weak from hunger and exposure, huddled in a coal shed. Samuel was placed in a hospital and Daniel was taken to the hospital but he could not care for his brother, but the request was refused. Both asserted that they had never before or since separated.

PRES. WILSON ASKS FOR AID FOR JAPANESE

American Red Cross Will Forward Contributions to Sufferers

WASHINGTON, Jan. 15.—President Wilson late today issued an appeal to the American people as president of the American Red Cross for funds to assist the people of Japan, who are suffering not only from the earthquake but from the failure of crops.

The president's appeal is as follows:

"Our sister nation of Japan is suffering from two very serious disasters. The failure of crops in the northeastern part of that country has brought hundreds of thousands of persons face to face with the terrible misery of starvation, and in the southwestern island of Kiushiu, a sudden great volcanic eruption has carried death and desolation to large numbers in a thickly populated district."

"I appeal to the humanity of our American people that they may give expression to their sympathy for the suffering and distress of so many of their fellow men by generous contributions for their aid. Such contributions can be made to the local Red Cross treasury or sent directly to the American Red Cross, Washington, D. C."

General Red Cross Order.

Red Cross headquarters announced tonight that an appeal had been sent out to all state chapters asking local chapters to gather funds.

SOUTH BOASTS OF PROSPERITY NOW

GREAT CELEBRATION IS HELD IN MEMPHIS

Railroad Stocks Not Wanted Now, Declares Judge Lee of Chicago.

MEMPHIS, Tenn., Jan. 15.—Prosperity in the south, as evidenced in bumper cotton and grain crops, large cattle production and general business conditions, which were declared to exist in any other section of the country was celebrated here tonight at a banquet given by the Memphis Business Men's club. More than 400 guests, including prominent men from all parts of the United States, were in attendance.

The railroad interest in prosperity was discussed by R. F. Bush, St. Louis, president of the Missouri Pacific railroad. Other speakers and their subjects included:

W. R. Davies, Chicago, vice president of the Central Trust company, "Action Warshawsky, Recept, as collateral, James Keefe, general manager of the Chicago Tribune, "Lead Cash, Spirit, Judge, Blawie, Lee, Chicago, general counsel Illinois Central railroad. Related, Punishment of Railroad, and J. P. J. Monev, managing editor of the Commercial Appeal, Memphis Progressive Memphis.

Instead of being watered railroad stocks today look like a lemon after a cautious asserted Judge Lee. He said that watered stock and high-handed methods of railroads were things of the past generation and did not belong to the present day.

Stock Not Watered Now

"I have been working for railroads and on for the last part of my life, and I can truthfully say I never knew a railroad stock to be watered except in the experience of promoters of desperate enterprises who built their names to sell. It has been commensurate over and over again that the methods of the country could not be used to build up a railroad and bonds."

The idea that railroads are owned by the people is erroneous, Judge Lee said. The great bulk of railroad stocks is held by insurance companies and banks, which for the benefit of small investors who cannot afford the risk of buying securities which pay over 10 per cent.

Discussing the question of rates, Judge Lee declared railroads could over are barely paying living returns owing to increased cost of fuel and supplies. This is particularly true in the United States, he said, where a government has not been authorized an increase of rates.

Many of the state governments, he said, are working to increase and raising railroad rates.

BIG DAM BREAKS; MANY HOMELESS

NO KNOWN CASUALTIES SO FAR REPORTED

CUMBERLAND, Md., Jan. 15.—Huddled in rude shacks and about blazing campfires, hundreds of flood refugees tonight watched and waited in the West Virginia hills while the northern branch of the Potomac river swelled to an angry flood, swept through their homes in the towns that dot the valley below.

A wall of water, starting from the broken dam of the West Virginia Pulp and Paper company on Stony creek moved down to the Potomac inundated the town of Schell, W. Va., where the two streams meet, and started a flood wave laden with wreckage and ice down the Potomac valley.

Warnings of the approaching flood sent the residents of small towns along the river scurrying to safety in the hills.

Residents Flee to Safety.

Rumors of several men caught in the flood at Shaw, W. Va., 20 miles from Schell, which could not be confirmed, were the only reports of casualties attending the flood. The flood warning emptied the town of Shaw and sent many residents of Blaine, Harrison, Kitmill and other small places in the path of the water hurrying to the ridges. Fear that the water might rise still further prevented many of the refugees from returning to their homes, even in towns where little damage was done.

Officials estimated that property along the path of the flood had been damaged to the extent of about \$200,000. To this was added thousands of dollars worth of logs carried away by the water.

The flood was apparently expended its energy in a 20-mile dash down the valley of Stony creek from the face of the burst dam to Schell. This valley, however, practically was uninhabited.

Big Dam Breaks.

The big dam which impounded a lake of water five miles long and which was 60 feet high had been weakening for several days. Last night it began to crumble and a warm code down the valley warning the inhabitants of the impending break. Early this morning a part of the big structure gave way and at noon today the sweeping waters carried away the greater part of the face of the dam in a mass of wreckage.

Below Schell the rushing water joined the Potomac river and for 70 miles the gradually diminishing wall of water rolled on, increasing the height of the river from three to eight feet in its 70-mile course between Schell and Cumberland.

The Potomac was filled with ice and this with the wreckage and log booms torn from their moorings added force to the flood.

Dealers Reduce Prices

Lignite Lump Now \$4

The local coal market is now on the same price basis that it existed before the strike, due to the action of dealers yesterday in reducing the price of lignite coal 50 cents a ton. Lignite lump is now quoted at \$4 a ton. The reduction is believed to be general and with the announcement that the price of bituminous coal has been reduced 75 cents per ton the coal situation is about normal. No action is assigned for the local market prices.

CHAMBER OF COMMERCE TO ENTERTAIN NEW MEMBERS

Annual Meeting Next Tuesday Will Celebrate Success of Increasing Membership List to 1,000

In commemoration of the fact that the Chamber of Commerce has achieved a membership of 1,000, the annual meeting to be held next Tuesday will be in the nature of a reception of new members.

Nearly 300 members have been added to the organization in the last few months largely as a result of the successful War of the River. The mark is not yet quite to the 1,000 but several members of the committee have assured chairman Frank Cotton that they will devote the necessary time between now and the date of the annual meeting to bring it to this goal.

It was planned to hold a reception to new members early in December but the weather man interfered and it was necessary to postpone the meeting. To make up for the delay the entertainment committee promises something unique in the way of receptions and entertainments, and it has announced that the evening affair will begin at 6:30 o'clock.

The annual meeting is the occasion for a review of the year's work and reports will be received from all the standing committees. Several changes in the by-laws will be considered. At this meeting the newly elected officers will take office, and within a day or two after the annual meeting the board of directors meet to elect officers.

LABOR HEADS ARE INDICTED AT CALUMET

Moyer and 37 Other Leaders Held by Grand Jury for Activities

VERDICT IS NOT A SURPRISE

Union Men Say They Expected Indictment; Charge Jury Was Packed

HOUGHTON, Mich., Jan. 15.—Charles H. Moyer, president of the Western Federation of Miners, and 37 other officials and members of the organization were indicted today on charges of conspiracy in connection with the copper miners' strike. The true bill was so worded that the allegations against the men constitute a misdemeanor. Several other true bills were returned, but because they charged felonies, Judge P. H. O'Brien entered the documents sealed until the men named in them have been arrested.

Warrants were prepared for the 38 union men accused of conspiracy and deputy sheriffs scurried over the country late today serving them. More than a dozen individuals had been arrested tonight and circuit court commissioners in Houghton and Calumet were busy approving bonds of \$1,000, under which many of the prisoners were released.

Grand Jury Still Busy.

So far as could be learned, none of the sealed indictments related to the deportation of Moyer and Charles Tanner on the night of December 28. The grand jury continued its work, after making its report to the court, but the score or more of witnesses in the courtroom said they were summoned (Continued on Page Two.)

SOUTH AFRICAN STRIKE FAILURE

MEN ARE RETURNING TO THEIR OLD PLACES

Plot to Found Labor Republic in Short Time Is Disclosed

LONDON, Jan. 16 (Friday). A Johannesburg dispatch to the Daily Express says the government has discovered documentary evidence of a plot for a revolutionary movement in April to set up a South African labor republic.

Strike Subsiding.

CAPE TOWN, Jan. 15.—The strike appears to be subsiding before the energetic application of martial law. The labor party here was dumfounded at the news of the arrest of the Johannesburg leaders and it is reported that there has been a rush of men to resume work.

The Trades federation held a meeting tonight and although no decision was announced, it is understood that the idea of calling a general strike in Cape Colony has been abandoned. At present the general strike order has reference only to the Orange Free State and Transvaal. A prominent labor member of parliament tonight admitted that labor had received a crushing blow.

Early Collapse Expected

The early collapse of the miners' strike is expected. Hundreds of striking miners have been arrested at Benoni, and similar measures will be taken elsewhere if found necessary. The railway men are straining back to work at many places.

Simultaneously with the short work made of the defiant trades federation leaders at Johannesburg the executive force of the Railway and Harbors Employees' societies of Cape Town and Pretoria were arrested a night practically every important strike leader throughout the Union of South Africa is in the hands of the police while from every direction comes signs of weakening on the part of the men.

A great number of men have returned to work and the railroad authorities are increasing the service. They express themselves as confident that they will have normal service running in all three provinces within the next 48 hours.

Labor Leaders Surrender.

JOHANNESBURG, Jan. 15.—Secretary Bain of the South African Federation of Trades and his band of 20 comrades who had been held since the strike in the middle of the month, surrendered today. They are being taken to the police lock-up.

The railroad strike showed signs of collapsing this afternoon when the (Continued on Page Three.)

ROAD CONVENTION EXPECTED TO ADOPT MILL LEVY PLAN

Likely Fight on Issue Looked for Today When Resolutions Committee Reports; Governor Outlines Finance Plan

With one day passed, the chief work of the fourth annual convention of the Colorado Good Roads association remains to be done. Discussion between supporters of the bond issue and mill levy for the financing of good roads will start the session this morning, having been postponed from yesterday afternoon on account of insufficient time.

At a meeting of the resolution committee late last night it is understood that resolutions were adopted favoring the bond issue and this number is being increased daily.

Program Not Finished.

So enthusiastic was the afternoon session that the discussion lengthened out and time for adjournment came before half the scheduled program was finished. The chief address of the afternoon was given by Dr. F. L. Bartlett of Denver on "The History of Road Building in Colorado." Dr. Bartlett gave a survey of road work in the state from the days of the pioneer to the present time.

Following Dr. Bartlett's talk came a roll call of counties to which a representative of the county committee of each county responded with a report of the road work done in their respective territory during 1913. Reports were heard from 41 counties showing an expenditure of nearly \$2,000,000 for road work in Colorado during the last year. At the close of the reports the session was adjourned to meet this morning at 9 o'clock when the subject, "How to Finance Good Road Building—Bond Issue vs. the Mill Levy," will be discussed, the debate being led by J. W. Kelly of Denver and Charles R. McLean of Canon City. "Federal Aid in Road Building" will be discussed by E. W. Morrell, chief of the forestry division, Denver, as this talk was also postponed yesterday. Following these discussions the regular program as scheduled for today will be followed out.

Governor Ammons in his talk yesterday dwelt largely upon the way the state can finance its good roads movement by federal aid in the handling of its public lands, without a bond issue or an amendment to the constitution for road work. He said in part:

"At the convention of western governors in Salt Lake City last June we took up very carefully the question of public lands in relation to road improvement and we found that in the constitutions of practically all the western states, allowance is made for the setting aside of 5 per cent of one-half the proceeds of the sale of the state's public lands for the purpose of road work. This state has 40,000,000 acres of land to which the government fields title and if we can get the federal government to permit us to exercise our constitutional privilege we will have 2,000,000 acres of land at the disposal of the state and the proceeds will give us all the money necessary for a good road work for years to come. If the federal government will allow a cash payment in lieu of this land, the amount according to the terms of a bill now before congress, the same end can be reached in another way. We do not yet know that we can get either plan through, but in all such questions we meet with opposition of this bureau on that in Washington but if we can there will be no necessity of voting a bond issue or securing an amendment to the constitution."

Million Dollars Expended.

In the past year the state has expended \$1,000,000 for road work and the various counties have expended like amount, dollar for dollar.

(Continued on Page Four.)

WOMEN ASK RELEASE OF "MOTHER" JONES

Call on General Chase for Explanation of Acts; Wallace Arrested

TRINIDAD, Colo., Jan. 15.—More than 100 women, wives of striking coal miners, late this afternoon invaded the quarters of General John Chase, in a local hotel, and demanded the release of the imprisonment of "Mother" Jones, now being held incommunicado in a local hospital. The women were addressed by General Chase who declared that "Mother" Jones was being held in accordance with the order to keep peace in the strike zone, that "Mother" Jones' record was that of one whose speeches incited men and women to violence. A request on the part of the women to be permitted to visit "Mother" Jones also was refused.

The crowd of women, bearing American flags, marched from Labor Union hall to the hotel and returned in an orderly manner after the interview with General Chase.

A slight blonde woman who refused to give her name, acted as spokeswoman of the party. When General Chase stepped from the clock tower into the crowded lobby, she asked: "We want to know, General Chase, why you are holding Mother Jones?"

RAILROAD MAN IS SUICIDE ON EVE OF HIS WEDDING

NEW YORK, Jan. 15.—Richard B. Lankford, a vice president and secretary of the Southern railway, committed suicide today by inhaling gas in his apartment in Brooklyn. He was soon to have been married to a Brooklyn society girl.

Mr. Lankford was 46 years old. On Saturday he was to have married Miss Nellie Patterson. So far as is known he left no note explaining his act. A porter employed in the bachelor apartment where he resided noticed the odor of gas and forced his way into Mr. Lankford's room. In the bathroom lay Lankford's body unclothed. A friend who was with Mr. Lankford last night said that when they separated the railroad man appeared to be in good health and spirits.

"Lankford had everything to live for," he said, "and I cannot believe that he committed suicide. It must have been an accident."

Mr. Lankford's home was at Princeton, N. J. He had spent most of his time in New York, since he became a vice president of the Southern railway in 1912.

Miss Patterson was on the verge of hysteria when informed of the suicide.

"Mr. Lankford spent last evening with me at my home," she said. "He left about 10 o'clock. I did not say good-by to him. He had been sitting up talking to my mother and father. What he said to them I don't know. He appeared to be perfectly happy while he was talking with me which was for about two hours after dinner. We had never had the slightest trouble and no quarrel of any kind at any time. I cannot imagine the reason for this dreadful thing."

WHOLESALE ROBBERY
OF BANK PREVENTED
BY WOMAN'S SCREAMS

EVERETT, Wash., Jan. 15.—Five armed men held up the Granite Falls State bank, 18 miles north-west of here, late today, and escaped with between \$1,500 and \$2,000, after a running battle with a posse of citizens. It is reported none was injured.

The men, who wore no masks, entered the bank shortly after 4 o'clock this afternoon when the only employee in the place was J. G. Ingalls, cashier, and C. E. Blase, assistant cashier. One of the robbers stood guard at the front door, while the others forced Ingalls and Blase into a back room and attempted to lock them in. While they were capturing the cashier and his assistant, Mrs. Stella Forest started to enter the bank but was driven away by the men on guard.

Realizing that a holdup was in progress, Mrs. Forest ran screaming down the main street. E. T. Turner, the postmaster, grabbed a shotgun and ran to the bank, shooting through the window. The robbers gathered up all the loose money in the cash register and ran into the street and toward Iron mountain.

Turner's shot and the screams of Mrs. Forest and children in the street returning home from school spread the alarm and a posse of 15 armed citizens, led by Fred Ivy, the town marshal, started in pursuit, firing as they ran. The robbers returned to the bank but so far as known no one was injured. The fugitives became lost in the fog.

The villages of Arimura and Yokohama, living between the peaks, were exterminated by the explosions on Tuesday.

The victims of Sakurajima lost everything they possessed. They are ragged and suffering from hunger and exposure.

GOV. SHOULD OWN NATION'S COAL MINES?

(Continued on Page Four)
(Continued From Page One)

yet our population is multiplying by leaps and bounds each year, thereby increasing the demands for this article. With this condition existing and with avarice as the dominating characteristic in man, I, at the risk of criticism by my friends and countrymen, unhesitatingly say that government ownership of the mines is the only hope of solution for those who may come after us.

"These thoughts are not a dream of today but the result of many years of thought and consideration. My recent investigation into conditions in the Paint and Cabin creek strike, with all the attendant horrors, has confirmed my thoughts into a fixed judgment."

Additional partial reports on phases of the West Virginia investigation are still to be submitted to Senator Swanson by Senators Shields and Kenyon. When these have been made Senator Swanson will combine all of the partial reports in a general discussion of the results of the investigation.

PRES. WILSON ASKS FOR AID FOR JAPANESE

(Continued From Page One)

of the executive committee of the Navy League of the United States, started a subscription list with \$1,250, which was added to by other members of the league and donors of the navy. The cablegram was sent to Viscount Kaneko of the American Friends society of Tokio:

"Instruct Red Cross to draw on 'The Navy,' Southern building, Washington, D. C., for \$2,500 yen. This is sent to sufferers of volcanic eruption by officers and friends of our navy in recognition of the kindness shown our fleet when visiting Japan."

(Signed)

"ROBERT M. THOMPSON"

Refugees Return

KAGOSHIMA, Japan, Jan. 15.—The houses on the island of Sakurajima—those that still stand—are enveloped in lava and resemble gigantic wasps' nests. The fugitives who have returned are still in a terrified condition and refuse to enter their homes, except to make a hurried search for valuables. Fears are entertained of the disintegration of Sakurajima.

The western part of the island is thickly coated with melted sulphur. The southern part is covered with a great deposit of ashes. The condition of the central part is obscured by the heavy smoke.

Throughout the eruptions the staff of the Kagoshima observatory remained at their posts, facing external and calmly recording each phase.

One Hundred and Fifty-eight Rescued.

KOBE, Jan. 15.—The Ryukyu Maru, a passenger steamer, has arrived here after having rescued 158 of the inhabitants of the village of Yumura on the island of Sakurajima and landed them at Kagoshima. All the residents of another village were found to have been rescued, with the exception of one, who was taken aboard.

The captain of the steamer witnessed the spectacle of the eruption of the volcano. Flames leaped from the ground, setting the villages on fire. While the steamer lay off shore ashes to the depth of one foot fell on her decks. On the way to Kobe there was a pall of ashes like a dense fog.

Near Chirish Island a severe submarine upheaval shook the vessel as though she were in collision.

On Tuesday the captain endeavored to call at Aburatsubo, on the east coast of the island of Kishu—but, owing to the ashes, was unable to advance without great danger.

Situation Improves

MIYAZAKI, Japan, Jan. 15.—The situation here has improved but there are still frequent earthquakes and terrific thunderstorms throughout Kishu. The rain, however, has purified the atmosphere. The rivers have turned yellow and are covered with dead fish.

One Thousand Homes Destroyed.

KAGOSHIMA, Jan. 15.—A relief party reports that in four villages of Sakurajima 1,000 households were destroyed and buried in lava. The burning lava set fire to many other houses and villages on the coast. The shores are heaped with the bodies of animals.

On Wednesday night additional explosive eruptions occurred constantly.

Don't Be Mislead If You Have Lung Trouble

If you have Lung Trouble, do not be misled by reports of discoveries or specifics to relieve that affection. No specific has as yet been found. Eckman's Alternative, however, is a medicine for throat and lung troubles which has been successfully used in many cases. If you are sick, it might be wise for you to investigate its merits and its use may be of lasting benefit to you. Read of this case:

893 Seventh Ave., New York

Gentlemen—Five years ago last August I was taken to St. Francis Hospital to be treated for Bronchitis and congested lungs. After several weeks' treatment I was advised by the doctor to go to a convalescent sanitarium, but could not be admitted because the doctor at the hospital, after a thorough examination, declared my case Lung Trouble, and gave me a certificate to that effect. I showed the certificate to Father Stark, and he advised me to take Eckman's Alternative. I took the Alternative faithfully and directed, and soon found myself free from night sweats and fever, and gradually got better. I have not taken the Alternative now for two years, and can truthfully say I am well. I feel better and am stronger than before my sickness.

(Affidavit) MARY KORHAMER
(Above abbreviated more on request)

Eckman's Alternative has been proven by many years test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Croup, Colds, and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Sold by leading druggists. Write the Eckman Laboratory, Philadelphia, Pa. for booklet telling of recoveries and additional evidence. Adv.

Ferris Protests Against Reports of Lawlessness

Says Representative M-Donald
and Mr. Trautman State-
ments in House

WASHINGTON, Jan. 15.—A telegram from Governor Ferris of Michigan branding as "false and traitorous" statements as to conditions in the Michigan copper district attributed to Representative MacDonald of Michigan, and quoted in the senate by Senator Ashurst, was read in the senate today and later withdrawn as a violation of the courtesy due a member of the other house.

Senator Townsend of Michigan presented the message with a copy of a similar telegram sent to President Wilson by Governor Ferris. It asserted that law and order, was being preserved in the copper district, the courts open, the grand jury in session and the machinery of justice available to every citizen.

Senator Burton of Georgia objected to the reading of the message.

"Neither the governor of Michigan nor the senator from Michigan has the right to have read here," he said, "that which is defamatory to the character of a member of the other house."

Speaker Davies Charge.

In the debate which followed before Senator Townsend withdrew the message and substituted a statement of its substance, Senator Ashurst said Representative MacDonald had been seated beside him in the senate when he presented his resolution for a congressional investigation of the copper strike situation, and that the quotations from Mr. MacDonald had been made with his permission.

The telegram from Governor Ferris read in part:

"Senator Ashurst reported to have quoted Michigan congressman from the Twelfth district as saying: 'The Twelfth district of Michigan is a part of the United States where constitutional government no longer exists; that the rights of citizens under our constitution and our laws are overthrown and the laws and the constitution defied.' If the congressman from the Twelfth district said these things he said that which is false, that which is a traitorous insult to his own district, and the state of Michigan."

Senators Protest

Senator Bacon, although protesting against discursive in the senate toward members of the house, declared himself in sympathy with the position of the governor, that Michigan should handle the strike situation itself. Senator Borah took the same attitude.

Senator Ashurst asserted that Representative MacDonald had told him of conditions in Michigan that could not be overlooked. He said he had not referred directly or indirectly to the governor or the laws of Michigan but indicated that the statements of Representative MacDonald, many of which the latter had not permitted him to quote, dealt entirely with violations of federal laws and the constitution of the United States.

Senator Walsh had introduced in the second a number of petitions which had reached him from the copper region of Montana praying that a congressional investigation of the Michigan situation be had. Senator Gallagher said he had received similar petitions from his New Hampshire constituents, but had not presented them as he believed the Michigan situation to be "none of New Hampshire's business."

SOUTH AFRICAN STRIKE FAILURE

(Continued From Page One)

men applied for reinstatement at Braamfontein.

A seven-pounder field gun trained on the trades hall proved an irresistible argument to Bain and his companions. The government authorities gave them a quarter of an hour in which to yield, informing them that if they did not do so they would be buried beneath the ruins of their fortress.

After a brief conference they surrendered.

Strong guards were placed in position to keep close watch on the hall and no pedestrians or vehicles were permitted to approach anywhere near it.

The Transvaal Leader a newspaper which has hitherto employed only union labor, issued only four pages this morning. These had been composed by hand instead of typesetting machines and contained an announcement that "in future only nonunion men would be engaged on this paper."

Along the Rand, the situation is reported satisfactory to the government. Some of the workmen at the mines have volunteered their services for the protection of property. Although laborers of all trades in the Transvaal and Orange Free State have joined the strike, the workmen of Cape Colony and Natal are still at their occupations.

There is evidently some lack of sympathy with the revolutionary platform of the syndicalist strikers, who correspond to the Industrial Workers of the World of the United States.

COBEQUID WRECK DUE TO BUOY'S LIGHT BEING OUT

ST. JOHN, N. B., Jan. 15.—The light on the buoy that marks Trinity rock, where the liner Cobequid was wrecked, was out, according to Captain John Hawson, commander of the ship, who arrived here tonight on the government steamer Lansdowne. He was the last man to leave his ship. This statement was borne out by the agent of the Canadian marine department officers here who said the department was notified January 7, that the light was out. An announcement of it was made in the newspapers and the shipping federation at Montreal notified.

Crew and Passengers Safe.

YARMOUTH, Jan. 15.—The 24 passengers and 12 members of the crew of the Royal Mail steamer Cobequid rescued yesterday are comfortably housed here today and recovering from the effects of their long exposure to icy winds and waves. Captain Hanson and the remaining 11 seamen were still on board the wrecked vessel today.

The Cobequid impaled on Trinity rock, six miles off Port Maitland, was badly washed and coated with ice but the captain's cabin remained intact. The government steamer Lansdowne stood by throughout the night, prepared to take off the 12 men if conditions became too dangerous.

Captain McKinnon of the Westport little coastal steamer which rescued 72 persons, said today that when he came alongside the Cobequid, he found all the passengers and crew in the captain's cabin, the only dry spot on the steamer. The seas were breaking over the main deck. The Cobequid was lying headed to the westward, with the bow down and the stern well out of water.

All of those taken on board the Westport left the Cobequid in the three boats launched by the crew of the wrecked vessel. Notwithstanding the gale and the boiling sea, the transfer was accomplished within two hours.

COBEQUID WRECK DUE TO BUOY'S LIGHT BEING OUT

without accident. The nine women and children among the passengers were the first to be taken from the Cobequid and hauled aboard the Westport.

Cobequid Total Loss.

When it was seen that the Cobequid would be a total loss the captain and man who had remained on board abandoned her and were taken to St. John on the government steamer Lansdowne.

Humiliated with cold and dazed by their long ordeal few of the rescued could give an intelligent account of their experiences. One of the officers of the Cobequid said:

"The ship struck at 6 o'clock Tuesday morning while we were trying to locate the lights off the Lurcher shoal. In the blinding snowstorm which prevailed we overshot the mark and brought up on the southeast end of Trinity ledge."

"It was low tide, and later in the morning as the tide rose it forced us further up on the shoal. The steamer began to pound heavily, and in a few minutes the engine room was filled with water. This stopped the engine, putting the lighting system and the wireless apparatus out of commission."

After the ship struck we sent out an S. O. S., which was picked up by the Cape Sable wireless station.

Later with the engine room filled our operators had to depend entirely on the auxiliary storage battery. Then the gale carried away the deck connections of the aperiods. A temporary connection which proved unreliable, was fixed up but an hour later this, too failed. Again we begged up a connection but the batteries were growing weaker and we could send only a very faint spark. The puny waves could not reach the Cape Sable station only 30 miles away but we were able to pick up the medley of words regarding ourselves and knew we were being searched for in vain off the Brier Island 40 miles away in the position we erroneously gave before our wireless failed.

Early yesterday the Canadian Northern liner Royal George outward bound from St. John, picked up our feeble cry and the rescue followed.

GREECE FLAHS WAR WITH TURKEY NOW

Assistance of Powers Asked to Prevent Another Conflict

BERNE, Switzerland, Jan. 15.—The assistance of the great powers in the prevention of another war between Greece and Turkey is being sought by Premier Venizelos of Greece. The premier declares that his government considers such a calamity most probable since the advent of Turkish minister of war of Enver Bey.

It was learned here today in authoritative circles that this was the chief object of the visit of the Greek statesman to the various European capitals.

It was added that Greece fears the result of such a conflict, as Turkey is indisputably stronger on the sea since her purchase of the Brazilian dreadnought Rio de Janeiro.

In the course of his conferences with European statesmen, Premier Venizelos is also endeavoring to obtain a postponement of the evacuation by the Greek troops of that portion of Epirus awarded to Albania, a rectification of the Albanian frontier, and permanent acquisition by Greece of most of the Aegean islands.

BERNE, Switzerland, Jan. 15.—The situation in Albania is much more grave than is generally known or officially acknowledged by the European powers, according to authoritative information gathered in diplomatic circles today. The various governments are directing all their efforts in order to prevent a fresh outbreak of war in

LABOR HEADS ARE INDICTED AT CALUMET

(Continued From Page One)

to testify concerning disorders that arose prior to December 15.

Besides Meyer, the following men were indicted:

C. E. Mahoney, vice president of the Western Federation; J. C. Lowrey, Guy Miller, W. P. Davidson and Yanko Terlich, members of the executive council of the Western Federation; William J. Rickard and John E. Antilla, president and secretary, respectively, of the Calumet local; Dan Sullivan and Charles E. Heitla, president and secretary of the Hanok local; Sidney Thomas, president of the Ahmeek local; Ben Gogria, Mor Oppman, John Valimaki, John Dunnigan, Patrick Dunnigan, Helmer Mikko, Andrew Petala, Peter Jadda, Henry Koski, John Huhta, Thomas Strilich, Victor Branden, Eino Wiltanen, Frank Aaltonen, William Krall, Dolphus Little, Anton Pechaur, James Pauli, W. T. Williams, E. James Rowe, Henry Grebb, Stephen Oberto, Jacob Oliver, George Toth, Louis Fodor, Joseph Gasperich and James Kulick.

Defendants Absent.

With the exception of Davidson, none of the national officers of the union was in the district. All of them, however, have been here at various stages of the strike and have taken active part in directing it. Several of the local men listed in the indictment also are absent.

The indictment was on three counts, the first and second charging conspiracy to prevent mine employees from pursuing "their lawful vocations." The third count alleged that the conspiracy extended to an attempt to deprive the laborers generally of their property and rights.

The testimony of 121 witnesses formed the basis of the charges. In this list were included James McNaughton, general manager of the Calumet and Hecla Mining company; F. W. Denton, general manager of the Copper Range Consolidated company; Theodore Dangler, superintendent of the Mohawk Mining company; Charles Lawton, superintendent of the Quincy mine; August Beck, ex-sheriff and now chief of the secret service of the Calumet and Hecla; Enoch Henderson, superintendent of the Franklin mine; and R. R. Selber of the Wilma mine.

Several Women Called.

In addition, there were several women, a number of business men and more than four score of nonunion workmen.

After perusing this list of witnesses, the union men generally said that they were not at all surprised that the indictments had been found. Charles E. Heitla also called attention to the personnel of the grand jury. "This charge is no surprise. It has been openly stated that at least nine of the jurymen owe allegiance to the Citizens alliance and that body is frankly the enemy of organized labor. Everything we have done in conducting this strike has been open and above board. So far as I am concerned, my only offense is that I have been an active advocate of and worked for the Western Federation of Miners. I cannot see how this constitutes any offense against the peace and dignity of the state of Michigan or any other commonwealth in the country."

No A. J. Wade.

W. P. Davidson, who has visited the district only twice, had not been arrested under the indictment up to a

OUCH! SORE, ACHING Joints, RUD RHEUMATIC PAIN AWAY

Rub pain right out with a small trial bottle of "St. Jacobs Oil"

Rheumatism is "in the joints." Not one case in fifty fails of internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and cannot burn the skin.

Lumber up! Quit complaining! Get a small trial bottle of "St. Jacobs Oil" from any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief and a cure awaits you. "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings. Adv.

late hour tonight. Several months ago he was here less than two days, according to information from Federation "curses." He appeared on the scene and addressed a new meeting of strikers.

The grand jury also reported two "no true" bills. One of these concerned 27 union men who had been charged with unlawful assemblage at South Range, December 10. The other freed H. Stuart Goodfield, a Painesville merchant, of the charge of shooting at a striker.

Strike developments generally today were few. A trainload of 261 imported workmen arrived tonight. The men were sent to the Lake Superior, Ahmeek and Ahmeek mines, subsidiaries of the Calumet and Hecla company. Mounted police escorted them to the mines, but there was no attempt to molest them.

Equally negative conditions prevailed in the Kawasaw county mines, where disorders have occurred since the departure of state troops, three

Meyer Has Little to Say.

DENVER, Jan. 15.—Charles H. Meyer, president of the Federation of Miners, when informed today that he had been indicted on a charge of conspiracy, said that he would not defend a course of action until after he had been fairly notified of the indictment and had consulted with attorneys.

"I shall leave Denver in a few days for Indianapolis, to attend the convention of the United Mine Workers of America," he said.

"From there I expect to return to the Michigan copper district. So far as this indictment is concerned, I shall make no plans until I have further information."

O. N. Hilton, attorney for the Western Federation of Miners, who had just returned to Denver from his country, said he was unable to determine at present what action would be taken in furnishing bond for the indicted officials.

He declared the indictment would open up the whole question as to the right of labor to organize unions and to strike to enforce its demands.

Files Closed in 3 to 14 Days.

Druggists refused money for PAIN OINTMENT fully to cure itching, itching, itching, itching, itching. First application gives relief. Adv.

MOON DEFIES WILSON IN OPPOSING CIVIL SERVICE FOR ASST. POSTMASTER

WASHINGTON, Jan. 15.—Defiance of administration disapproval of the postoffice appropriation bill, because the provision exempting all of the 2,490 assistant postmasters in the country from civil service was voiced from the house debate on that measure today by Representative Moon of Tennessee.

He attacked the American diplomatic corps as "a superfluous appendage to the republic" and "a gang of political reprobates and society degenerates that we ought to wipe out of existence."

Mr. Moon said he had received a letter from Postmaster General Burleson saying the president did not approve the section regarding assistant postmasters.

"This committee is not here to bow to the will of the president or the postmaster general on a question on which we differ," he added. "No domination of the postmaster general nor threat of veto from the president ought to swerve us from the course we believe to be right. The views of the president and the postmaster general, although I respect them, certainly will not control me."

Rape "American Royalty."

Suggesting the possibility of overriding any veto of the bill, Mr. Moon said he would have none but Democrats on guard in the administration of the government. "If you want to make a monarch of the republic," he added, "all you have to do is to apply civil service to congress, the president and his cabinet."

He asserted the consular service consisted of all Republicans covered under the civil service.

"No man who is not worth into the millions of dollars can hold a position in one of the great courts of Europe as ambassador or minister," he said. "Must the leaders of society, with the false glare and glimmer of their position, falsely represent the sentiment of the American people? Four whole diplomatic corps in the interest of economy and good government and a foreign decent conception of the American people, ought to be abolished—they are of the house of lords of the United States. They form a distinct class that scarcely pay any regard to senators who vote their confirmation when once they have approached the throne of royalty," he said.

BARRICADING SELF IN HOME, DEFIES SHERIFF

MAYVILLE, N. Y., Jan. 15.—Forty-eight hours after shooting John G. W. over the shoulder, Edward Beardsley was still holding out against the siege of Sheriff Anderson and his deputies at a little farmhouse near Sum-

POS-LAM READY TO HEAL YOUR AILING SKIN

It is wonderful to see how a small quantity of Pos-Lam, and few applications, will brighten any dried, scaly, rough skin. Often after brief treatment the improvement is startling.

Pos-Lam is a lighty controls and eradicates "Acne" and stubborn, itching skin troubles. Itching eczema, Pimples, "Itch" Rash, Scald-Scall, Charles' Wart, Corns, Lipo and Hand-Infected Complexions, all are benefited at once by its soothing, healing influence.

All druggists sell Pos-Lam. For free sample, write to Emergency Laboratories, 225 West 42nd Street, New York. Pos-Lam Soap will improve and beautify your skin and keep it in healthy condition. Adv.

DIVIDENDS PAID IN ADVANCE BY THE READING CO.

PHILADELPHIA, Jan. 15.—Attorneys for the Interstate Commerce commission, which is conducting an inquiry here into the rates and practices of the anthracite coal carrying railroads and the so-called railroad companies, endeavored today to show there was a combination among certain corporations identified with the hard coal trade to fix a basis for rates.

The primary purpose of the inquiry is to establish whether coal freight rates are reasonable, and counsel for the commission delved into the finances of the Reading company to find this out.

The commission's counsel endeavored to show that the Reading company, the holding company for the other Reading companies, owned the stock of the Philadelphia & Reading Terminal company, despite the fact that bonds amounting to \$1,500,000, secured by this stock, was carried as a liability of the Reading Railway company with no corresponding asset.

Paid Excess Amount.

W. E. Morgan, of counsel for the Reading company, in a statement to W. H. White, comptroller of the Reading company, said that the Reading company paid the Reading railway, monthly in advance instead of semiannually in advance, a sum of \$1,500,000, or 100 percent of the cost of the equipment and also guaranteed to replace damaged or destroyed equipment. The witness admitted that the railway company paid to the holding company more than \$1,000,000 for replacements valued at more than \$1,000,000 and that the excess of \$1,000,000 was charged up to operating expenses of the railway company.

On re-examination, the witness said that this excess payment was due to the increased cost of material.

Further examination of Mr. White brought out the fact that the railway company paid in advance to the holding company various sums of money on account of dividends that had not yet been declared. Counsel for the Reading said this was not a violation of the law. The dividends amounted to 15 percent per annum.

Paid Dividends in Advance.

It was brought out that the Port Reading Railroad company paid the holding company in advance dividends of 15 percent before they were declared by the directors, and that the railroad company turned over to the holding company interest on \$20,000,000 of bonds in advance in monthly installments, instead of semiannually in arrears, as the loan called for.

Witnesses were examined earlier in the day with regard to allowances that had been made to the Lehigh Coal and Navigation company, which had not been published in the rates filed with the interstate commerce commission. "Certain of these allowances have been discontinued by the Jersey Central railroad, as has also the practice of hauling free of charge certain sizes of coal that the railroad coal companies exchanged."

Beardsley warned a deputy, who carried me guns to him today under a flag of truce, not to approach the house again under pain of death.

He said Sheriff Anderson's ultimatum. It said that unless the man surrendered by 3:30 p. m. the place would be taken by storm and that if Beardsley resisted he would be shot without mercy.

"Let them come," was Beardsley's answer.

"Then you won't surrender," asked the deputy.

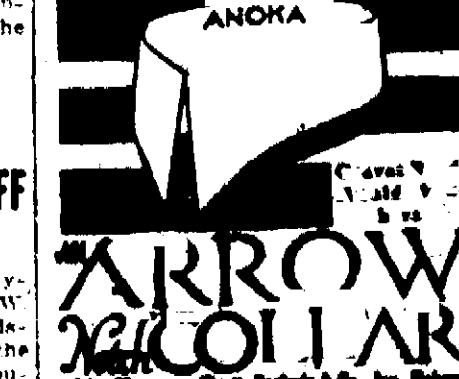

"I might, about April first; now clear out," replied Beardsley.

The hour of the threatened raid came and Sheriff Anderson took no action.

He did not wish to endanger the lives of any of the deputies in capturing Beardsley, he said.

The fact that Beardsley's wife and nine children are in the house at the mercy of the desperado and perhaps starving was urged upon the sheriff as a reason for immediate action.

Poor Master Putnam was removed to a hospital tonight after a successful operation to remove the bullet. He showed improvement but on account of his advanced age—he is nearly 70—there is little hope for his recovery.

SHEEP MEN SCORE WILSON'S POLICIES

750 Wool Schedule in Tariff Bill Injures Industry, They Declare

SALT LAKE CITY, Jan. 15.—More scientific methods in wool growing and more coöperative action in marketing their products, as well as obtaining legislation favorable to the industry, were advocated by speakers at the first day's sessions here of the fiftieth annual convention of the National Wool Growers association.

The proceedings were marked by a sharp criticism of President Wilson and his attitude toward the wool tariff schedule in the annual report of the secretary, S. W. McClure.

"The sheep man made the mistake," said Mr. McClure, "of assuming his industry was legitimate when Mr. Wilson stated that no legitimate industry would be injured by a Democratic administration."

He declared that a flat stand for free wool had been made by those opposed to Representative Underwood because they realized that the tariff, if passed, as originally written by Mr. Underwood, would have made him a popular candidate for the presidential nomination in 1916.

Western Vice President M. I. Powers of Flagstaff, Ariz., spoke tonight against the enactment of a general land leasing law. He asserted that, speaking for Arizona, flockmasters, such a law would place a prohibitive limitation on a much needed industry.

Western Vice President A. J. Knollin of Chicago urged closer cooperation among sheep men to obtain higher graded products and better markets. He advocated the formation of district associations for experimental purposes.

WASHINGTON, Jan. 15.—President Wilson today outlined the status of a number of the problems before him. He announced that he probably would utilize the full 60-day period allotted by law before making final selections for the federal reserve board and would proceed carefully. He made it clear that he regards the task as one equally as important as constituting the whole supreme court of the United States.

The president will not insist that antitrust legislation be given precedence in congress over rural credits or vice versa, but is disposed to leave them to parliamentary procedure, hoping that both will be accomplished at the present session. While he also hopes that the presidential primary idea outlined in his annual message may be enacted into law before congress adjourns, he would not object to its going over until the December session, believing the opinion of the country should be gathered on it and bills drawn that are universally satisfactory. He expects to confer soon with Chairman Kern of the committee on privileges and elections concerning it.

Favors Adjournment by June.

Mr. Wilson would like to see congress adjourn by June with the trust question and rural credits disposed of, but is not sure that congress can complete its work by then.

No time has been set for the reading of the address to congress by the president on the trust question, but it is likely to be next Tuesday. The president will confer with Representative Stanley, head of the steel investigating committee, tomorrow, and hopes to consult others prominent in trust reform before giving his message to the printer. He does not believe the trust question can be covered in a single bill, as were the tariff and currency.

Scouts Trade War Reports.

The president considers the Mexican situation unchanged, and, according to White house officials, has received no communications from any foreign governments concerning Mexico's default on the payment of interest on outstanding bonds.

Published reports of a trade war by Germany and Great Britain against the United States are regarded as purification by the president, and he believes, moreover, that there is no foundation for the supposition that any agreement, tacit or implied, exists between Great Britain and Germany not to participate in the San Francisco exposition.

On the question of a civil government for the Panama canal zone, the president expects soon to have a conference with Secretary Garrison.

Tonight the president attended a dinner given in his honor by Secretary Bryan, the second of the series given by the vice president and members of the cabinet to the chief executive.

THE AWE-INSPIRING HORSE

From "Character and Comedy," by E. V. Lucas.

I doubt if a sculptor or painter, challenged to represent the most sublimely terrifying thing that human beings can meet, could do better than to mold or depict a frenzied horse.

I believe that the horse is not only the noblest animal that we know, but in its rage the most terrible. It is customary to say that the lion is the noblest creature, but the lion, for all his grandeur, has a furtive look; and the tiger even more so; while the elephant, for all his size, has just that touch of the grotesque which is fatal. But the horse is beautiful, and noble, too. And it is all to his advantage as a symbol of terror that he is normally the kindly friend of man in perfect subjection, and that his frenzied aberration, the contrast intensifies the emotion.

I should, however, be conveying a very false impression if these remarks upon the noble animal led anyone to suppose that I am either a horseman or even comfortable in a horse's presence. Quite the reverse. I am one to whom the horse is an unknown and perilous quantity. I have for horses and dogs an affection which most people seem to keep for their fellow men.

but although with dogs I am at home I am totally at a loss to know how to deal with the larger creature. A horse disquiets me; it has an expression of alarm that may at any moment translated into action. I like to know where an animal is looking, and its bright, startled, liquid convulsions tell me.

One "FRENCH COLIC" is the same as "Lazare's Bromo Quinine" and is a cure for one day, or in 3 days.

NEWSPAPERARCHIVE®

MR. OR MRS. DYSPEPTIC! GET YOUR STOMACH RIGHT--PAPE'S DIAPEPSIN

In five minutes! Time it! No indigestion, gas, sourness, belching.

"Really does" put bad stomachs in order. "Really does" overcome indigestion, dyspepsia, gas, heartburn, and sourness. In five minutes--that's just that--makes Pape's Diapepsin the fastest selling stomach regulator in the world. It what you eat ferments--two stubborn lumps, you belch gas and eructate sour, undigested food and acid, head is dizzy and aches, breath foul, tongue coated, your insides filled with bile and indigestible waste, re-

member the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing--almost marvelous, and the joy is its harmlessness. A large, fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home--should always be kept handy in case of a sick, sour upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world. Adv.

ROMANCE OF EARLY DAY ROAD BUILDING IN COLORADO RECALLED BY DR. F. L. BARTLETT

Pioneer Trails and Stage Lines Cut State in Directions; All Wheeled Vehicles in 1828

A romantic story of a phase of pioneer history that has never received much attention in the west made up the principal address before the Colorado Good Roads association yesterday afternoon. Dr. F. L. Bartlett of Denver, in his paper on "A Brief History of Road Building in Colorado," presented an exhaustive study of the early highways and methods of travel, and placed the history of all the principal roads up to the present time. So little has been written on this topic that Dr. Bartlett found it necessary to gather his information from old settlers. The first trail built into Colorado, was for the purpose of reaching the trapping stations located along the Arkansas river as far west as Canon City. The old Santa Fe trail, which just touched the extreme southeast corner of Colorado, brought the first wheeled vehicles into the state in the year 1828. The trail which went by the way of Fort Bent and down Timpani creek, was changed in 1852. Touching on the routes of the great wagon trains, Dr. Bartlett said: "For 20 years these great wagon trains, often numbering as high as 400 teams, passed over this great natural highway, each caravan doing its own road work as the case demanded, which was sufficient to get them through. Five thousands pounds of freight was about the limit for eight miles or three yokes of oxen. There were no bridges and it often required 40 or 50 head of mules to pull one wagon across the river beds, while at flood times the caravans simply had to go into camp and wait. For a long time the lowest going rate for freight from Independence, Mo., to Santa Fe was 10 cents a pound.

1886 when many of the toll roads became free highways and the mining camps and farming sections were developing with great rapidity. "The father of the present-day good roads system was Otto Mears," said Dr. Bartlett, "and it was due to his energy and perseverance that we have many of our present-day highways. "Between 1880 and 1902 came what may be called the permanent bridge-building period, due mainly to the fact that the state was able to supply the country with funds from the internal revenue fund which reached a total of \$241,000 in 1889. This fund became known as the pork barrel fund, and created no little scandal and dissension. "Autos Lead to Good Roads Clubs. The coming of the automobile, about 1900, was followed by the organization of the first club for good roads. Dr. Bartlett was vice president of this organization, the Colorado Automobile club, and later similar clubs were formed in Colorado Springs and other cities. Soon joint meetings were held and good roads campaigns were started. "The first state convention for good roads met in Denver in July 1905," said Dr. Bartlett. "It was called by Governor McDonald, and J. A. Hayes of Colorado Springs was the first president. Henry Russell Wray of Colorado Springs was secretary and I was vice president. The late Thomas F. Walsh at this time took an active part in the good roads movement and contributed \$500 for expenses. "The first government aid came after an appeal to President Roosevelt and Secretary of Agriculture Wilson, and later sent Logan Walter Fager, chief of the good roads bureau and several assistants with instruction to stay as long as necessary and to render all assistance possible. In the next convention, in 1906 the bill for the state highway commission was drawn up and the committee were appointed, to get it through the legislature. Among those who took active part were our present governor E. W. Ammons and Highway Commissioner Ehrhart. The highway commission bill failed to be considered on the floor of either the house or the senate, the pork barrel contingent proving too strong. Not discouraged the good roads association immediately issued for a campaign of education all over the state. In order to gain strength the various road associations were consolidated in the fall of 1908 into the Rocky Mountain Highway Association and a highway bill was finally pushed through and became a law in 1909 but with no adequate appropriation for effective work. "State Roads Mapped Out. During 1909 and 1910 state roads were mapped out, but no funds were available for anything more than beginning of the work. In January 1911, another good roads conference was called in Denver for the purpose of making another attempt to secure funds. Four road bills were drawn at this conference and presented to the legislature. The two most important ones being for a \$1,000,000 bond issue and the turning over of the internal improvement fund to the highway commission. The bond issue passed, but when referred to a vote of the people was lost. The highway appropriation bill was amended and after the rejection of a bond issue, work turned to appropriations from the internal improvement fund. The remainder of the fund was turned over to the highway commission under the well known bill No. 200. Governor Shaffer vetoed the 90 cent road bill, thus turning over the entire improvement fund to the highway commission. Immediately the validity of the bill was assailed. It was fought through the courts and finally pronounced invalid by the supreme court. A momentary lull in the work followed. The bill was then introduced and fought to a vote of the people. It lost by a few votes. There was much talk of \$500,000 of the money left in the bank at that time. After the failure of the road legislation of last year Mr. Bartlett paid tribute to the scheme of convict labor on the roads, Colorado. While this did not originate in our state, he said, it was worked out by us to a completeness which is now an object lesson and example for all other states to follow. The present highway commission, T. J. Ehrhart is responsible for the first bill for convict labor on our roads. This was in 1908 and in the same session a bill for convict labor on state roads was introduced and defeated. The bill was introduced in 1910 and was defeated. In closing Mr. Bartlett paid a tribute to Warden Thomas J. Tynan saying: "Under his energetic and progressive management convict road work has been extended until Colorado now ranks high over all other states in this class of work."

ROAD CONVENTION EXPECTED TO ADOPT MILL LEVY PLAN

(Continued From Page One)

According to the law enacted some years ago. This year we are trying to provide about \$400,000 for road work by transferring funds from one account to the other and it may be that we will succeed in this. It is a matter of adjusting it between the various departments to which appropriations have been made.

The most important work done in this state during the year as regards roads was the formation of a legislative scheme by which the work shall be carried on and the funds dispensed, also the formation of the state highway commission.

"Good roads are the arteries of trade and without them the state and its industries cannot be advanced permanently. So far the state highway commission has devoted its time largely to the establishment of a system of main state highways which are intended to form a framework for the future. When we have these main arteries of traffic in a condition that we might call practically complete, we can then proceed to build the branches into the various communities not served by the main lines of travel. We must have the groundwork before we can proceed with the detail and all parts of the state cannot expect to see the dirt flying in every locality all at the same time. We must be patient and consider that the first plan is on the principle of the greatest good to the greatest number."

Convicts and Roads.

Much good work has been done during the year by the state penitentiary convicts with great benefit to the state and to the men themselves. This is one of the finest things the state has ever done and the money spent in this way is doubly repaid. In this matter of good roads we have to learn by experience and we must remember that roads that serve the farmers will also serve the tourists to the state. The farmers should not be jealous of the mountain communities and the mining communities should work in harmony with the agriculturists. Remember that we cannot compare ourselves with such a state as Massachusetts, for example, that spent several millions last year and built 800 miles of new roads. That state has not a foot of land which is not taxable and its wealth is great. Its communities lie close together and its population is dense. Here we have a vast area with less than 1,000,000 population and nineteen-twentieths of our tax is reaped from less than one-quarter of our area. We must do the best we can with our conditions for we have difficult conditions to contend with owing to the topographical character of our state. "But I am confident in the future of this state and its continued prosperity. Last year we raised \$55,000,000 worth of products on our farms, lands and we had more tourists in the state than ever before. I went through the state with the Indiana Auto association men and took pains to ask them their estimate on the future auto traffic to Colorado. Most of them said that when we get our roads perfected we will have from 150,000 to 170,000 visiting automobiles in this state every summer. Think of that!"

A Bright Outlook.

"In conclusion I want to make a plea for harmony among the people of Colorado. We have had our difficulties in the last year and no man has a keener sense of those trials than I. The last two years have been unfavorable over the entire nation. The presidential election of 1912 kept business in doubt for months. Then came the change in administration and people waited to see what congress would do. But now some of the big problems that have kept the country holding its breath are disposed of and I believe we are on the verge of an era of great prosperity. Let us all work together in harmony for the best interests of our state and we will have the best year in our history."

Today's Program, 9:30 A. M. Convention called to order. Improvement, construction and

Maintenance of Public Highways.

John A. Whitaker, senior highway engineer of the federal good roads bureau, Washington, D. C. "Road Construction," T. J. Ehrhart, state highway commissioner. "Road Maintenance," R. H. Higgins, Pueblo, president County Commissioners Association of Colorado. An open debate on the question above named will follow.

Afternoon, beginning at 2 o'clock. Convention called to order. Reports of committees on resolution, organization and legislation. Election of officers. Adjournment.

Fame of Colorado Roads Widespread

That the good roads movement in Colorado has spread and made its influence felt, is evinced by two telegrams received by Secretary W. H. Emmons of the Colorado Good Roads association during the sessions of the fourth annual convention at the Antlers yesterday. The messages came from the Automobile Club of Southern California and the Ocean-to-Ocean Highway association of Albuquerque, N. M. They were as follows:

Los Angeles, Jan. 14, 1914. H. Jenkins, Pueblo Commerce Club, Pueblo Colo.: Please announce at Colorado good roads convention the endorsement of southern California in the splendid work which is being done in the improvement of Colorado highways. You may state that the Automobile Club of Southern California hopes to have 500 routes along-posted from San Diego and Los Angeles to summit of Raton pass, and one route along-posted from Los Angeles to Flagstaff, Durango and Pueblo before the close of 1914.

The automobile club will also use its best endeavors in the improvement of roads from Colorado to southern California for the purpose of a closer commercial alliance as well as the encouragement of transcontinental travel through the southwest during 1915. We wish particularly to commend the work as accomplished by Warden Tynan in the building of state highways by convict labor. Every state in the Union is interested in the outcome of his work, and particularly do we hope in California to develop a system along similar lines.

O. K. PARKER, Chief Engineer Automobile Club of Southern California. Albuquerque, N. M., Jan. 15, 1914. Secretary Fourth Annual Convention Colorado Good Roads Association: The Ocean-to-Ocean Highway association extends to you greetings and assures you of their hearty cooperation in your great work in making it possible for the touring public of the United States to visit the most interesting, greatest scenic and historical sections of the United States by Automobile. The ocean-to-ocean highway from Trinidad, Colo., to Los Angeles, Cal., can be traveled in safety and comfort all the year round, with abundant public stations and excellent hotel accommodations. We would be delighted to have Denver as the northern terminal of our route, and would court an exchange of literature along these lines.

D. K. B. SELLERS, President.

Street Car Men's Ball Will Draw Large Crowd

The twenty-first anniversary of the employees of the Colorado Springs street railway to be held at Simpson hall next Tuesday is an assured success. Judging from the advance sale of tickets for the affair Fink's orchestra will play for the dancing and the proceeds from the ball will be devoted to the sick fund of the union. The committee in charge is doing everything to make the affair one of the best social events of the season and pains and money have not been spared in the preliminary arrangements. C.

Mr. C. W. Daniels of the Daniels Furniture Co., left yesterday for Chicago, Grand Rapids and other eastern furniture markets, where he will buy every thing new in the furniture line. Mr. Daniels reports that he has just closed a very successful year, it being his first year in business in Colorado Springs.

WOMEN ASK RELEASE OF "MOTHER" JONES

(Continued From Page One)

mination and gave bond of \$5,000 for his appearance in Colorado to stand trial.

Keating Fesses Probe.

WASHINGTON, Jan. 15.—Representative Keating of Colorado urged President Wilson today to support a congressional inquiry of the Colorado strike, but Mr. Wilson did not say what course he would pursue. The Earl of Kintore and Oscar S. Straus talked briefly with the president about the forthcoming celebration of the treaty of Ghent in London. John F. the naturalist, and former U. S. Marshall of Toledo, O., newly appointed minister to Belgium, also visited the president and paid their respects. After a conference with the president Senator Owen said hearings would be begun February 4, on bills for regulating stock exchanges.

Military Court Busy.

TRINIDAD, Colo., Jan. 15.—A court martial, with Captain Hildreth Frost acting as judge advocate, this morning began an investigation of the case of Private Richard Obley of Company F, Second Infantry (Colorado National guard), charged with the killing of John German a coal miner on January 11 at Cameron in Huacana county. The prisoner was brought here from Walsenburg this morning in custody of Major Leo W. Kennedy and the hearing is being held at Camp San Rafael on the outskirts of this city. Obley claims the shooting was accidental.

The military commission is also still in session and is engaged in an investigation of recent minor strike cases.

BEILISS AND FAMILY MOVE TO PALESTINE

KIEV, Russia, Jan. 15.—Mendel Beiliss, recently acquitted of the killing of the Christian boy Andrew Yukhin, left today accompanied by his family for Jaffa in Palestine. Baron de Rothschild bought a small farm in Palestine for Beiliss.

CARDINAL RAMPOLLA'S LATE WILL NOT FOUND

ROME Jan. 15.—Search of the apartment of the late Cardinal Rampolla for a last testament bearing a later date than that of 1889 has failed to reveal the testament. It was reported that the authorities are about to take more energetic measures which will include the arrest of one of the men employed in the cardinal's household.

POPE IS PROTECTED FROM SEVERE WEATHER

ROME Jan. 15.—Owing to the severe weather and snowfall, special measures have been adopted to protect the pope from the rigors of the winter season.

Always Reliable Relief from the ailments caused by disordered stomach, torpid liver, irregular bowels is given quickly and assuredly by the tried and reliable BEECHAM'S PILLS

NEW YORK TAKES UP RURAL CHINT PLAN

Experts Discuss Scheme to Provide Money for Crop Remedy

ALBANY, N. Y., Jan. 15.—Details of the projected state land credit system, were discussed by experts and Governor Glynn today. The result of the discussion is that separate methods will be employed for effecting short term loans for such purposes as moving of crops, and long term credits for general improvements and similar purposes. The long term credit, it is proposed to have cared for by a land bank which will crystallize the coordination of the 250 savings and loan associations in the state. A bill to this effect has been drawn and will be introduced next week.

This land bank is the keystone of the proposed system. In connection with it, it is proposed to issue debenture land bonds bearing the state's guarantee, thus providing needed farmers with liquid assets on the security of their lands. As a supplement to this a special commission for the marketing of the farm products is proposed, also the broadening of the law relating to commission merchants. The short loan requirements are expected to be taken care of by the forming of farmers' credit cooperative unions throughout the state.

INTERVENTION IS BOUND TO COME

(Continued From Page One)

Ribio Ortega, Gen. Monclovia Herrera and Gen. Panfilo Natera, who fought at Ojinaga.

General Villa expects to go to Juarez to confer with some of his chiefs before he himself joins the rebels in their southward march. He probably will be in Juarez early next week. Reports from Torreon said that the federalists there commanded by Gen. Jose Refugio Velasco were greatly alarmed by the rebel victory at Ojinaga, and that they probably would flee from that section of the country if the rebel army appeared in force. The federal army around Torreon had hoped that General Mercado at Ojinaga would be able to resist the rebels, who thus would not be in a position to march south without fear of a revolt.

Occupy Torreon Suburbs.

The rebels already occupy the suburbs of Torreon. The federalists were reported to be camping in the railroad yards, so that they might evacuate quickly. If only a little fighting is required to drive them from Torreon General Villa said, he would proceed at once toward Zacatecas, the next large city southward. After that the rebel march will be to Aguas Calientes. A general rally of the rebel armies around Guadaluajara, the second largest city in the republic, is contemplated later. Prospects of peace in the territory held by the rebel government became such that the Mexican Northwest railroad today ordered many of its employees to return to their posts. The road is to be operated to the lumber camp at Madera and extended as rapidly as the bridges can be repaired.

Tented City Erected.

EL PASO, Tex., Jan. 15.—A tented city was erected at Fort Bliss, near El Paso today for the reception of the 4,500 Mexican soldiers and refugees from Ojinaga, Mexico. On their arrival from Presidio Tex. in four or five days, the defeated federal soldiers and officers will be divided into their original commands and placed in camps here indefinitely or until the war department orders their removal elsewhere.

Gen. Hugh L. Scott took personal charge of arranging the camp. About 1,500 tents, 10,000 blankets and kitchen supplies were provided. It will require a railroad of railcars every two days to feed the Mexicans. Even the regulations the army has no authority to compel the refugees to work but it expects the Mexican officers will order their soldiers to maintain the camp. The wives of the soldiers will be cooking.

A wire fence has been strung around the camp. Within this enclosure the refugees virtually held prisoners will be guarded day and night by United States troops.

Vessels Aground in Frisco Harbor Due to Big Fog

SAN FRANCISCO, Jan. 15.—The Northwestern Pacific steamer Tiburon ran ashore on the rocks at Fort McDowell on Angel Island shortly after 8 o'clock tonight. She is loaded with passengers and a derrick for loading the bay. Her captain communicating with shore reported her bottom damaged and hopes to float her off at flood tide. The Port Point life savers, the United States tug Gold State and other crafts have gone to her assistance.

The pilot boat Parthol del Norte struck the gate at shore near Fort Point shortly after the Tiburon struck. Two Key Route ferry steamers, the Yuerba Buena and Fernwood crowded with passengers narrowly escaped serious collision earlier in the evening. Their pilots saw each other coming head on and reversed full speed in time. Mayhew was the fog in the thick in the history of the city.

The passengers of the Tiburon, numbering hundreds, were taken to Sausalito a suburb in every form of craft that could be impressed into service.

MOTHER LOOK CHILD'S TON

If a w. feverish, give "California Syrup of Figs"

A laxative today saves a tomorrow. Children simply take the time from play to eat bowls, which become clogged waste, liver gets sluggish, sour. Look at the tongue, moist, coated, or your child is liable feverish, breath bad, restless eat heartily full of cold or throat or any other children's give a teaspoonful of "California Syrup of Figs," then don't worry, it is perfectly harmless, and in hours all this constipation, bile and fermenting waste will move out of the bowels, and well play full child again. A "inside cleaning" is oftentimes necessary. It should be the first remedy given in any sickness. Beware of counterfeit figs, your druggist for a 50-cent "California Syrup of Figs," full directions for babies, children and for grown-ups plain on the bottle. Look carefully that it is made by the "Cald Syrup Company." Don't be

NATIONAL GUARD NOW AVAILABLE FOR SERVICE IN TIME OF WAR

WASHINGTON, Jan. 15.—generals of the national guard states concluded their convention by issuing a statement in which they unanimously resolved to support the proposed militia law which they agreed with Secretary of War.

"The final step has been the first time in the history of the country," said the statement, "the national guard, which has 120,000 officers and men available in time of war for the use of the government within the territory of the United States. It means that the national organizations from all the states at the moment of the passage of the law will be instantly available without physical examination or special except the call of the president. The law further provides degree of federal control over the guard and shall make it available for war service. A provision for officers and men to be reimbursed for expenses and to be paid for time devoted to the bill. There is also a provision for all necessary arms and equipment, and for officers and men of the regular army."

SCHOONER FOUNDERED BUT CREW IS

BOSTON, Jan. 15.—The schooner Grace, 30 miles south of Mattapoisett, today, and the crew of 17 men from the steamer A. off shore by the steamer A. For nearly 24 hours the crew, in an open boat nearly of shore, battled against the bitterest of weather. The distance from the spot where the schooner was foundered to the shore between Boston and Mattapoisett is 30 miles. The schooner's long boat floated until dawn today. The crew was picked up by the Grace A. Martin, head with coal, sailed from Mattapoisett on January 4, caught in the weather and ran aground on Monday, but her crew did not continue across the shore instead of seeking Provincetown. The vessel was further and further off shore. Two days of hard opened up her seams and she sank. The crew had warning to take some food, clothing before jumping into the boat.

YOUNG MR. KNOX SAILS AWAY WITHOUT BRIDE Philander C. Knox Jr. son of the former secretary of state, has sailed away to Bermuda with his mother and without the bride with whom he eloped three years ago. As a result rumor has it that at last trouble has come between the young pair whose affection was strong enough to defy a secretary of state. Young Knox who is the eldest son, eloped in 1910 with pretty May Boler of Providence. His father, who was at that time secretary of state, was very much upset and informed his son that his allowance was stopped. Although at first the Knox family was said to have refused to receive the bride later there was reconciliation and their relations were friendly. The young couple lived in Wayne a suburb of Philadelphia but the house at Wayne is now closed.

EVERYONE WILL ENJOY PICTURES BY ORSON LOWELL; FREE EXHIBIT OPENS THIS MORNING

Art Society Members View Collection and Are
Enthusiastic; Pictures Please Reviewers

By HENRY RUSSELL WRAY.

The exhibition of paintings and pen and ink drawings by Orson Lowell, the principal artist on life, was opened to members of the Colorado Springs Art Society yesterday afternoon from 3 to 5 o'clock. It will be opened free to the public today. These unusual works of art are hung on the second floor of the Federal building.

If there were any members of the society who did not go to the opening it was not apparent, for there was a large attendance. The reception accorded the drawings was enthusiastic. Smiles that broadened and then burst into laughter were of frequent occurrence. It is an exhibition that Colorado Springs adults will discuss as much as any yet brought here by the society. It is also one which the youth and maidens will ask questions about for the next six weeks. It will be a real education for them.

The work is the original from which the reproductions were made for Lowell's periodical. There were many comments yesterday on the large size of the drawings and the apparently coarse lines, or great strength of lines, in the work, when compared with the same reduced pictures which appeared in Life. That is another art of the good illustrator—to know just what depth of line to make in the original which will give the desired effect when reduced.

The only photograph in the exhibit is that of Mr. Lowell. He sent it to the local society under protest but it is not the least interesting of the series, as it shows the unexpected character of the artist-author. One unconsciously goes to this photograph more than once to better study the face of the man who can depict with such truth and versatility so many sides of life.

Lowell looks like a serious student. His expression is kindly, philosophical—but it is not that of a humorist. Yet his drawings are undeniably humorous as well as thoughtful. Lowell is a master of pen line and of originality of conception. He impresses you with the fact that he is sure of every stroke he makes. The elimination of unnecessary detail is to him a science. As a draughtsman in black and white only as a medium he produces the impression of color.

It does not require a deep knowledge of art to appreciate and enjoy the drawings and paintings of this man. But anyone who is familiar with the

PLANS FOR PIKES PEAK ROUTE TO BE DEVELOPED

Lincoln Highway Association to Make
Road One of Links in Ocean-to-
Ocean Highway

Plans for the further development of the Pikes Peak route as a link in ocean-to-ocean highways, and for the federation of various state units to bring together in one great transcontinental highway, were considered and adopted at the meeting of the board of directors of the Lincoln Highway association of Colorado, at a meeting and luncheon at the Alamo hotel yesterday noon.

J. K. Rouse of Burlington and Secretary A. W. Henderson of Colorado Springs reported in detail upon the negotiations conducted in December with the Rock Island Highway association and with the Golden Belt Road association, and the general opinion was that the Pikes Peak route should complete plans started at this time for the organization and promotion of a great highway from the Atlantic to the Pacific. As one of the delegates expressed it, he was strongly in favor of a transcontinental highway that should begin at Pikes Peak and go west to the Pacific coast and east to the Atlantic coast.

President Austin Gavin and Secretary Henderson were authorized to take up further negotiations with a view to bringing in a definite report at the annual meeting of the association which will be held in Colorado Springs, February 11.

A feature of the annual meeting will be an exhibition of slides of various portions of the highway, and requests will be made of each county to present views of its sections of the road at the annual meeting.

News of the Courts

Judge John W. Shear of the district court yesterday overruled a motion for a new trial in the suit of Mrs. Christina Leland, formerly Mrs. Paul, against the city of Colorado Springs for the death of her former husband, Paul, in a city gravel pit. The court entered a judgment for the plaintiff in the sum of \$200.

The case of Mrs. W. S. Wintermute against Mary A. Woods is being heard in the district court. This probably will be concluded today. Mrs. Wintermute asks an injunction to restrain Miss Woods from using a secret process of dyeing and curling ostrich feathers, which she alleges she taught her. Mrs. Wintermute charges that she taught Miss Woods the secret process under agreement that the defendant would not use the process in this city.

Alleging cruelty, Frank Brownington yesterday filed suit for divorce in the district court against Mattie May Brownington. The couple were married March 25, 1889 in St. Francis, Kan. The plaintiff asks the custody of three minor children.

Frank Scott charged with stealing coal from the Denver & Rio Grande Railroad company was arrested yesterday afternoon by the police.

rudimentaries will wonder how he so forcibly, clearly and cleanly gets his marvelous results—due perhaps to his simplicity. One would say from his insight into all sides of life that he must have obtained some of his knowledge through personal contact with existence and character.

There is no drawing in the collection that suggests slovenliness. Look at one carefully and you will find that Lowell, with but comparatively few true strokes, has made you suggest the rest of the story or picture. He plays no particular "type" to the image. He draws really existing girls and women, likewise boys and men, many of them good looking and others as they were less fortunately born. He does not confine himself to one type in America. There is nothing biting, nothing venomous nor vulgar in his creation. They are subtly humorous. Without any attempt to get free advertising for the journal for which he so earnestly works, they are life types.

It is clever to draw well the subject you have conceived, but then to become the author of such dialogues and titles as Lowell presents to his audiences, illuminating his pen and brush work, is doubly clever. His drawings and words are sermons that hit hard in spots, while producing smiles.

Lowell seems to be an unordained priest-preacher of wholesome truths.

SPECIAL OFFICER TO GO AFTER NEW AUTO TAXES

Yesterday Last Day to Pay Fee for
This Year Less Than 100
Have Licenses

Although less than 400 automobile licenses have been taken out this year at the office of the county clerk W. S. Reynolds, special collector of the tax, said yesterday that he expected no difficulty in getting automobile owners of El Paso county to comply with the law and equip their machines with the 1914 state license tags. Yesterday was the last day allowed by law for paying the 1914 state tax on automobiles and beginning today, all automobilists who use their machines without paying the license are liable to prosecution.

Owing to the condition of the roads since January 1, a large number of machines have been kept in the garages and this is considered to be largely responsible for the delay in payment of the tax. So long as a machine is not used there is no need of a state tag and until the condition of the roads become better go extra large issue of licenses is expected. It is believed that there is no desire to avoid payment of the tax but that the matter has been delayed by many footing their cars could be used.

Start the new year right. Let the Pikes Peak Transfer & Storage Co. be your moving. Phone 180. Adv.

The St. Anthony Hotel San Antonio, Texas, is now under the management of W. O. Brinker, formerly of Denver and Colorado Springs. Adv.

\$100,000 FOR COLORADO'S EXHIBIT IN CALIFORNIA

Governor Ammons Says Fund Will Be
Raised Commercial Executives to
Discuss Plans Today

That Colorado should have exhibits at the two California exhibitions at San Francisco and San Diego, in 1915, and that the state will doubtless pass, through the legislature next fall, an appropriation for the transportation and maintenance of such exhibits was the opinion expressed by Governor Ammons at a conference between himself and the exposition committee of the Colorado Association of Commercial Executives at the Antlers hotel yesterday morning. The governor promised that he would work for the plan to have Colorado well represented at the big coast exhibitions.

The plan evolved at the meeting yesterday was to raise a fund of \$100,000 in the various counties of the state, either in cash or exhibits. If this is done, Governor Ammons gave assurance that the legislature would appropriate enough money to transport the exhibits to the coast and provide salaries for custodians of the display during the fair.

The plan of collecting and centralizing the exhibit will be discussed at length today by the Colorado Association of Commercial Executives. The exposition committee of this organization, composed of the following members, will make a report on the plan for raising the funds: J. H. Jenkins, Pueblo, chairman; E. L. Scholz, Denver; Charles J. Crockett, Greeley; George M. Raymond, Durango; T. V. Monell, Montrose.

Only One Application
A. H. Haines Are Going

(Aids to Beauty)
Here is a simple yet very effective treatment for superfluous hairs. With water, mix into a stiff paste enough powdered delatone to cover the objectional hairs. Apply and let remain 2 or 3 minutes, then rub off and with it comes every bit of hair. The skin should then be washed to free it from the remaining delatone. This is a painless, inexpensive method and even a stubborn growth yields to the first application. The success of this treatment, of course depends upon getting real delatone.

ANNUAL MEETING OF MERCHANTS TONIGHT

Dinner at Alta Vista, Beginning at 6:30, Precedes
Business Session

The retail merchants division of the Chamber of Commerce will hold their annual meeting at the Alta Vista hotel at dinner this evening. The dinner will begin at 6:30 o'clock and it is expected from the responses received that it will be the largest meeting in the history of the merchants division.

This meeting marks the close of the first year's activity of the organization as a division of the Chamber of Commerce, and the report of President B. S. Kaufman will show that a great deal of progress has been made in matters of interest to the merchants of the city.

The report of the special committee on by-laws will be presented by Chairman F. F. Wulfer for his committee, the other members of which are O. E. Hansenway, C. W. Daniels, Roy A. Davis and I. Polant. Other committees will report.

Officers of the merchants division for this last year have been: President, B. S. Kaufman; first vice president, J. C. Johnson; second vice president, D. J. Finkelstein; secretary, A. W. Henderson. The report of the by-laws committee will recommend the election of a new executive committee to include the officers and others, and will provide for a continuance of the monthly meetings which have been so successful during the last year.

TO SINK OIL WELLS 20 MILES FROM HERE

James Marshall Prepared to
Spend \$50,000 in Project
Near Town of Falcon

Believing that he will strike oil in commercial quantities in the vicinity of Falcon, James Marshall, a wealthy business man of Denver and Omaha, has leased 6,000 acres of land there and proposes to spend \$50,000 in an effort to secure a paying proposition. The land is 20 miles east of Colorado Springs and has been gone over by expert oil men who believe that the district is promising. The machinery for drilling is already on the ground and work will be commenced within a few days unless there is a change in the weather.

The plan is a personally investment and Mr. Marshall has no stock for sale, stating that he has made his money by taking such chances alone and is prepared to spend much in this effort. He is prepared to drill 3,000 feet in the first well.

SPRINGS-TO-GULF-ROAD OF GREAT LOCAL IMPORTANCE

Mountain Division of Highway Meets
Today All Interested in Project
Are Invited to Attend

No road is of greater importance to the state of Colorado than the Colorado-to-the-Gulf highway, and the meeting of the mountain division of this association this afternoon at 4 o'clock promises to be of importance in stimulating interest in the work of developing this great highway. The meeting will be held at the rooms of the Chamber of Commerce and all local people who are interested in this project are invited to attend.

The meeting will be called to order by Victor M. Friar, secretary of the Trinidad chamber of commerce, and the session will be devoted to the transaction of business looking to a further organization of this division and cooperation with the Texas people.

Great work has been done by the Texas counties through which this highway passes and as a result it is estimated that the number of automobiles to come from Texas points to Colorado next summer will be more than doubled.

Eric A. Swenson of Colorado Springs is director of the association for El Paso county.

The Annual Convention of the Colorado State Bee Keepers Association will be held in Denver January 20th, 21st and 22nd. Headquarters have been established at the Auditorium hotel and the convention sessions will take place in the Pompallian room on those dates.

Store Opens at 9.

City Wood Yard Will Help Charities Work

By purchasing kindling from the Associated Charities the people of the city can do a little charity work and incidentally help to solve the homeless men problem of Colorado Springs. Through arrangements with a commission of Public Safety, D. G. Johnson, W. F. Worcester of the Associated Charities will send all homeless men to the city wood yard where they will be given work enough to provide for meals of whatever they need. In return for this privilege the charities must dispose of the wood which the men split.

The kindling will be sold at the rate of five sacks for a dollar. The men will receive 5 cents a sack for splitting the wood. In this way it is hoped to provide work for those who are without funds or friends.

The city is fairly free of unemployed at present, said Agent Worcester yesterday. We average from two to five calls a week. The wood yard plan is just the thing to provide work for these men and all we need is a little cooperation in the part of the citizens to make it a success.

We are not especially busy with charity cases at present but one case came to our attention today which will require a little outside aid to handle. A family of a father and mother and eight children is practically destitute. I have rented them a house but they are sadly in need of furniture. They mostly need beds and bedding, a stove and some kitchen utensils.

The father has been working at odd jobs through the winter but on account of the number of mouths to feed has not been able to keep ahead. The family came to Colorado Springs last August and since that time had been living in a furnished house. Now they must move and are without furniture. The man has always been willing to work but the family is too large for the small amount of money he can earn at odd jobs this time of year.

HIGH SCHOOL STUDENTS TO VISIT ARMOUR PLANT

The members of the physics classes of the High School will go on a trip of inspection through the Armour plant this morning. The students will investigate the artificial cooling system with particular interest. A lay professor of physics will accompany the party.

DUNNINGTON'S COURT EARNED \$403 SURPLUS

According to his annual report, Justice O. R. Dunnington's court earned a surplus of \$403.90 last year. The total number of criminal cases filed during the year was 266 and the civil actions numbered 317. Following is the report:

No. of criminal cases filed—266	
Fees earned in criminal cases	\$117.55
Salaries	73.95
Excess fees	\$403.90
Fines collected	\$117.95
Costs collected	413.95
Total fines and costs paid to county treasurer	\$531.90
No. of civil cases filed—317	
Fees earned in civil cases	\$59.75
84 Marriages	96.00
Total fees	\$595.75
Less office expense	450.30
	\$145.45

The chief Magistrate will open the next session to the public from 11 a. m. to 12 m. on (1) 2 p. m. to 4 p. m. Sunday.

Refuse a page in a hotel brought him F. C. Waldman of Sydney. A stranger took up the man whose name resembled his. He found that it belonged to his brother who had been given up as dead many years before.

The Power Behind the Dough

K C

You may use an old favorite recipe and the best of materials and make it carefully, the oven may be just right, yet you will have a failure if "The Power behind the Dough" is not the right one to leaven it properly and make it light, digestible, wholesome.

Good baking without good baking powder is out of the question. K C Baking Powder has the "Power behind the Dough" and the double "K" in the bowl and in the oven—makes good results doubly sure.

Take no chances of failure—use K C and have "good luck" every time. At all Grocers.

FEDERATED TRADES IN FAVOR OF POLICE WOMAN

A communication from the Civic league asking cooperation and endorsement of their request for a police woman was received and endorsed last night by a unanimous vote of the Federated Trades council at its regular meeting. A committee composed of Adrian Ogle, J. K. Radley and O. R. Owen was appointed to interview Commissioner Johnson, expressing the views of the Trades council and to be present at the council meeting when the matter comes up for final settlement.

Deaths and Funerals

Word was received yesterday by Dr. C. H. Osincup of the death of his mother-in-law, Mrs. M. L. Patton, at Binghamton, N. Y. Mrs. Osincup is spending the winter there.

FINANCIERS ARE TO BE CALLED BEFORE NEW YORK ASSEMBLY

NEW YORK, Jan. 15.-Members of J. P. Morgan & Co., Kuhn, Loeb & Co. and other private banking firms in Wall street will be called before the senate committee of the state legislature, which is investigating private banks with a view to determining whether new legislation should be enacted for their regulation. This was announced today by Senator James A. Emerson, a member of the committee, after testimony had been given concerning the affairs of the private bank operated in connection with the failed enterprises of Henry Siegel.

Senator Emerson said that any new laws enacted should take the large Wall street bankers into consideration. The committee announced that on Friday when the hearing is resumed, the following will present their views as to the kind of laws that should be passed to regulate depositors: Jacob Gimbel of Gimbel Brothers, R. J. Greenhut of Greenhut, Siegel, Cooper company; Jesse Strauss of R. H. Macy & Co. and Samuel J. Bloomingdale of Bloomingdale Brothers.

William H. Porter of J. P. Morgan & Co., Paul Warburg of Kuhn, Loeb & Co. and James Speyer of Speyer & Co. will be invited to appear before the committee, to make what suggestions they may wish regarding legislative restrictions of private banks.

The activities in the building industry and in the engineering works in the neighborhood of Bombay is reflected in the increase of nearly \$200,000 in value of building and engineering materials imported during the year ended March 31, 1913.

JULES VEDRINES
Jules Vedrines, the intrepid French aviator who recently arrived in Cairo on his flying trip around the world, cables that he plans to drop down on New York on March 28, not a day later or a day sooner. He will fly via South America.

GEN. LOUIS WAGNER DIES IN PHILADELPHIA

PHILADELPHIA, Jan. 15.-General Louis Wagner, commander-in-chief of the Grand Army of the Republic in 1880 and prominent in many of the city's activities, died suddenly at his home here today, aged 78. General Wagner attended a meeting of the board of trustees of the New York Life insurance company in New York yesterday morning, returned to this city and conducted a meeting of the City Trust which has in its keeping large estates including that of Stephen Girard and last night attended ch few hours later he became ill. General Wagner was born in many and came to this country in 1848. He served in the Civil war as a member of a Pennsylvania regiment and was mustered as a brevet brigadier general. TWO FIREMEN KILLED FIGHTING BANGOR BANGOR, Me., Jan. 15.-Two men were killed by a falling beam fighting a fire that destroyed Bangor opera house today. Firemen were hurt but are recovering. The property is about \$100,000. Zero weather seriously hampered firemen's efforts.

OLD FOLKS FIND NEW REMEDY RELIEF ALL KIDNEY AND BLADDER PAIN

Drives Rheumatic Pains Away, Relieves Backache and Bladder Disorders After a Few Doses Are Taken
Sleep disturbing bladder weakness, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.
Croxone relieves all such disorders because it reaches the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the uric acid substances that lodge in joints and muscles, causing aching, and makes the kidneys and the blood and drive the system.
It matters not how old you how long you have suffered, in so prepared that it is practically possible to take it without There is nothing like it to work immediately and more few doses are seldom require have even the most chronic cases.
An original package costs trifling, and all druggists are to return the purchase price if should fail in a single case.

THE DAY'S HAPPENINGS IN SPORT CIRCLES

Edited for THE GAZETTE by T. W. Ross

MAJORS SIGN STARS TO BEAT FEDS TO 'EM

Brooklyn Has All Contracts but Tinker's, and Expects to Get His (?)

PHILADELPHIA, Jan. 15.—Gov. John K. Tener, president of the National league, who was here tonight asserted that from present indications every club in the league will take the field at the opening of the season with practically the same personnel as last year.

The governor said he believed the Philadelphia club will not lose a player except Knabe.

Governor Tener said the reports he has received from all the clubs on the circuit are gratifying. The club officials he said, are making rapid progress in signing players to contracts which were sent out later than usual this year before concessions granted to the players' fraternity.

KANSAS CITY, Jan. 15.—Charles Stengel and Joseph Roggett signed contracts tonight to play with the Brooklyn team of the National league, according to the announcement of William Robinson, manager of the Brooklyn club, who came here today to get the signatures of the two baseball players.

Stengel has been one of Brooklyn's regulars in the outfield. Roggett also an outfielder, was drafted by Brooklyn from the St. Paul club of the American association. It was said substantial increases in salary were offered to induce the players to sign.

All of Brooklyn's players now have signed contracts with the exception of Tinker. Robinson said, and I think there is very little doubt about his getting into line.

DETROIT GETS SIGNATURES OF SEVERAL MINOR STARS

DETROIT, Mich., Jan. 15.—The Detroit baseball club today received signed contracts from three recruits. They are George Burns, first baseman, from the Sioux City team; Martin Cavanaugh, third baseman, last year with the York, Pa. team; and Ralph Comstock, pitcher, obtained from Minneapolis.

BOONE, TEXAS LEAGUER, NOW PROPERTY OF N. Y. AMERICANS

NEW YORK, Jan. 15.—The signed contract of Luke Boone, shortstop of last year's Dallas Texas league club, was received at the New York American league headquarters today. Boone was purchased last summer.

OAKLAND RELEASES TWO

OAKLAND, Cal., Jan. 15.—The Oakland baseball club released today pitcher Dwight Stone to Montgomery and pitcher Schwenk to Nashville of the Southern league. Both pitchers were purchased last year from the St. Louis Browns.

BUSH TURNS DOWN "FEDS"

INDIANAPOLIS, Jan. 15.—Negotiations pending for nearly two months between the Indianapolis club of the Federal league and Owen Bush, shortstop of the Detroit American league team, practically were ended today when Bush refused to sign a local contract. Bush asserted he was satisfied with the salary offered but that he was not ready to sign a contract with any team at present.

George Duvall, pitcher, and Pat Bauman, infielder of the Detroit team, had not accepted the contracts offered by the Federal league tonight and according to officials of the local club the negotiation will be ended.

At the extreme left of the photograph is shown a portion of the Palace of Varied Industries, next in the foreground comes the Palace of Mines and Metallurgy, above which is to be seen a portion of the Palace of Manufactures. To the right are the rising frames of the Palaces of Transportation, Agriculture and Food Products. The large building with the dome in the center of the photograph is the Palace of Education, the dome rising to a height of 165 feet.

Three American Golf Stars Who Will Soon Invade Europe

EVANS, TRAVERS, QUIMET

ALONG THE SPORTSMAN'S BEAT

No Clarence the Boulder-Tiger football date controversy has not been settled. So says the "Tiger", lamenting that the public prints should say it is settled when they are only trying to settle it. However, Professor Lester has announced that the university athletic officials are anxious to patch up matters and that they will do the right thing. The right thing in this case is to respect the contract and play a November date or at the least on October 31.

Ten pin knights have at last a real organized league, which rolls at the Oakland. The bowlers in the Junior league have a long and interesting schedule ahead of them and the bowlers of the game expect to see some good rollers developed.

Of course Mark is in no danger of losing any of his stars who are held in the lion grip of his personality, but the invasion of the outlaws in Baltimore is of moment to him as he is supposed to have a big interest in the Orioles of the International league.

The local baseball situation is not exactly clear in the minds of the fans. Gail the Zoo manager last year has gone to Billings, Mont. Owner toughness of the menagerie club has announced any of his plans or who will have charge of the club and the proposition for organized baseball is still in the air. The league scheme will have to be decided one way or the other shortly because it takes time to get managers, players, parks, etc. If the city towns in the proposed Colorado state circuit are favorable and their decisions will be known Saturday, then it is believed that Colorado's ring will join.

Baseball men who recalled the close years between Frank Chance and Joe Tinker were surprised to hear that Tinker had been deprived of a first class pitcher says a writer in discussing the signing of King Cole by the Federals. Sentiment has always played such a big part in baseball.

Moran and Johnson who yesterday signed papers for a 20 round scrap in Paris in June, started their training immediately by drinking each other's health in goblets of champagne. Somebody put up \$500 for the bout which goes to indicate that there's one born every minute.

Ball players are an amiable lot. Governor Tener of Pennsylvania was a ball player in his younger days and Dr. Bert Dales, formerly of the Skidews, has now been elected mayor of Bayonne, N. J.

Internationals to Enter Major Field Is Report

BALTIMORE, Jan. 15.—An afternoon paper said today it learned "through an absolutely authoritative source" that the International league is to be turned into a major league by removing the draft and transferring the Jersey City franchise to Washington. The paper says that a meeting will be called in New York in the near future to discuss "this latest plan to combat the invasion of the Federal league."

Hal Just Wouldn't Pay Alimony; Wife Sues Him

SAN JOSE, Cal., Jan. 15.—Suit to recover \$145 back alimony was brought in the superior court here today by Helen H. Chase against her former husband, H. J. Chase, first baseman of the Chicago Americans. Mrs. Chase alleges that since December 1 Chase has paid her no alimony.

Mrs. Chase obtained her divorce on a countersuit when her husband instituted proceedings for a separation. She was granted \$100 a month for herself and child.

British Fund Committee Resigns; Raises \$55,000

LONDON, Jan. 15.—The Duke of Westminster's Olympic fund committee resigned today after disposing of the fund collections. The sponsors of the fund aspired to raise \$50,000 through a national subscription, but the amount subscribed and promised is less than \$55,000, nearly one-half of the promises being conditional.

Flynn Lands a Knockout; Must Have Been Accident

NEW YORK, Jan. 15.—Jim Flynn, the Pueblo fireman, knocked out Lick Driscoll, the Brooklyn boxer, tonight in the sixth round of a scheduled 10 round bout tonight. Flynn weighed 185 pounds and Driscoll 175.

Coach Al Sharpe of Flynn says the forward pass should be retained by the rule makers without change.

BASKETBALL ATTRACTION AT Y. M. C. A. GYM, TONIGHT 8:30

Terrific Open Local Season With Hard Game With Central High Five From Pueblo

Old time basketball fans will find the Y. M. C. A. gymnasium a most interesting place to visit tonight. The game will start at 8:30 o'clock. The High School boys, who are expected to crowd the gymnasium.

The game will start at 8:30 o'clock. The High School boys, who are expected to crowd the gymnasium.

NEWS OF WAR AND PEACE IN BIG LEAGUE BASEBALL

Many Players Signing With Organized Clubs While Others Deserting to the Federals

INDIANAPOLIS, Jan. 15.—Professional league baseball players who for two months have been negotiating with the Indianapolis Federal league club must sign three contracts at a conference to be held tomorrow or the negotiations will be ended. Manager William Phillips of the local team announced tonight.

The men are Owen Bush, shortstop, George Duvall, pitcher, and Pat Bauman, infielder of the Detroit American league club and Otto Miller, catcher, and Elmer Brown, pitcher of the Brooklyn National league team.

Manager Phillips announced that George Mullin, formerly of the Detroit club, had offered to sign a one-year contract to play with the Indianapolis Federal league team.

BALTIMORE, Jan. 15.—Frank Smith, a pitcher on the Montreal International league baseball team last season, has signed a three-year contract with the Baltimore Federal league club according to advice received here today from Pittsburgh.

PHILADELPHIA, Jan. 15.—Charles S. Doolin, manager of the Philadelphia National baseball club for four seasons today signed a contract to continue as a player and manager for another year. The amount of salary he will receive was not announced.

DETROIT, Jan. 15.—Hughie Highmity, outfielder of the Detroit American league baseball club, today signed with the team.

Indoor Roller Polo Is Latest Sport in Springs

Indoor roller polo, which is now sport for Colorado Springs, has been organized by the Y. M. C. A. in Temple theater and will be played for several days. The teams use the regulation roller skis and roller skates. The game is a most interesting and exciting sport. It has already attracted a large number of devotees and will attract a still larger number.

TRINIDAD AND FORT COLLINS GET BEHIND LEAGUE PROPOSITION

If Pueblo Will Join in State League Plan, Circuit Is Believed Certain

Lewis Encouraged Over Outlook for Organized Ball; Will Decide Tomorrow

Trinidad and Fort Collins are anxious to get into the proposed circuit. The word was put out yesterday in letters to Arthur Lewis, president of the National States League, who is taking the initiative in forming the new plan for organized baseball. Both teams feel that the circuit is one that is worth taking. The circuit is so far from the center of the state, will not be a financial success, will be a financial success, will be a financial success.

The Fort Collins people are anxious to get the circuit. The word was put out yesterday in letters to Arthur Lewis, president of the National States League, who is taking the initiative in forming the new plan for organized baseball. Both teams feel that the circuit is one that is worth taking. The circuit is so far from the center of the state, will not be a financial success, will be a financial success, will be a financial success.

The rate of the league, however, with the Pueblo hoisters, which is a pivotal point for the league, and owing to its size, will be a financial success. The league has no other teams. Therefore the hoisters for the league are now in correspondence with a prominent baseball man who is anxious to put in the league and word is expected any day that he will get behind it and boost.

Tomorrow, when the summer of executives meet in their annual session here, the baseball league plan will be discussed thoroughly and at this time the sentiment will be known and those interested in the proposition will have opportunity to plan their campaign further.

Nick Altrock Will Stay With Washington Club

CHICAGO, Jan. 15.—Nick Altrock, one of the bright lights of the game, when his left arm was at its best and when he wore a White Sox uniform, dropped into the newspaper offices today just to shake a friendly hand and say that he was not connected with the Federal league although he wished it luck.

Just say that I have signed a contract with Washington and will continue to play my faith in Clark Griffith until he asks me to drop down and out, said Nick. I am going to be a regular vaudeville with Pork Chop Evans and expect to open in Daxton. We will unquestionably make a hit.

HOLY NAME WINS FOR ALL STARS: SCORE 12-9

The Holy Name indoor basketball team last night defeated the All Stars in a fast, hard-fought game. Mary's ball by the score 12-9. The batteries, Holy Name, Ed and Montgomery, All Stars, Ed and P. Dorr.

LAFAYETTE AND WILLIAMS ON PRINCETON'S SCHEDULE

Lafayette and Williams are expected to appear in Princeton. Lafayette is expected to appear in Princeton. Williams is expected to appear in Princeton.

Workmen Rushing Huge Palaces of Panama-Pacific International Exposition to Completion

Copyright, 1913, by the Panama Pacific International Exposition

THIS photograph taken from the roof of the huge Palace of Machinery, shows a part of the main exhibit section of the Panama-Pacific International Exposition after three months of actual construction upon the buildings here shown. Before the buildings could be erected an immense amount of preliminary work was accomplished. Great lagoons were filled in by suction dredges and more than eighteen months were spent in leveling and laying out the grounds and in preparing for the record-breaking work now under way.

At the extreme left of the photograph is shown a portion of the Palace of Varied Industries, next in the foreground comes the Palace of Mines and Metallurgy, above which is to be seen a portion of the Palace of Manufactures. To the right are the rising frames of the Palaces of Transportation, Agriculture and Food Products. The large building with the dome in the center of the photograph is the Palace of Education, the dome rising to a height of 165 feet.

In the center of the photograph where is a pool of water, will be located the great central court, the Court of the Sun and Stars. More than 80,000,000 feet of lumber are being used in the main exhibit section. Thousands of men are at work. Each timber used in construction is numbered, and the foreman knows just where it goes. While the photograph gives an idea of the vast extent of the work it does not reveal the splendors of the great Exposition. When completed a number of the towers, domes, and arcades will rise higher than the first rim of the hills on the right. The Tower of Jewels being 430 feet in height. This photograph shows the outside walls of some of the buildings which are identical in height with those of the World's Columbian Exposition in Chicago, and the towers and huge vaulted arcades will be erected.

On the right above may be seen Fort Point, marking the entrance to the Golden Gate; below, to the right, is the broad esplanade, carpeted with green lawns and bordering San Francisco harbor.

Advertising Representatives: JOHN M. BRANHAM COMPANY, New York, Chicago, St. Louis, etc.

FRIDAY, JANUARY 16, 1914. ADMINISTRATION TRUST-BUSTING

THE past achievements of the Department of Justice in busting the trusts teaches the unwisdom of expecting great and beneficent results after each new "dissolution."

A few weeks ago the American Telephone and Telegraph Company announced that it would voluntarily undertake the task of unscrambling its eggs, and this was the beginning of a general rush to the mourner's bench.

THE Spanish-American War Congress adopted a naval building program based on the construction of two first-class battleships a year, with the necessary smaller craft.

THE Navy Year Book, just published, contains tables showing the relative strength of the various naval powers, both in tonnage and gun power.

France's building program will soon place its fleet ahead of that of the United States, and then, unless Congress changes its attitude toward the Navy, it will be a matter of only a few years until Japan will forge ahead and we will drop down to fifth place.

crease the aggregate number of vessels. The one-battleship program, if adhered to, will rapidly reduce American sea power below that of every other important nation.

The American Bison Society, founded a few years ago to work for the preservation of the bison, or buffalo, reports that there are now 3,455 of the animals in the United States, an increase of 19 per cent over the number in 1912.

The information has become public that Prof. William H. Taft is the owner of thirty-five pairs of trousers. Now watch the Socialists rise to demand why one man should be permitted to own enough cloth to make complete suits for fifty men of average size.

People who are looking for excuses for staying away from church will be interested in learning that an organized gang of burglars has been found operating in Connecticut in towns where "Go to Church" days are held.

"Something will happen soon, and it will be terrible," is Evelyn Thaw's comment on the court decision that Thaw is sane.

It is costing Uncle Sam a trifle of \$5,000 a day to entertain the thousands of fugitive soldiers and civilians who fled across the line after the battle at Ojinaga, but the fact is not likely to embarrass them in the least.

A Rome dispatch says the Pope is investigating the tango, and has ordered Cardinal Pompili "to make a study of the various steps."

OPEN PARLIAMENT

THE SINGLE TAX

FROM OTHER PERSPECTIVES

A REAL PROGRESSIVE

WATCH THE COLLEGES

THE PRACTICE OF BUILDING TWO BATTLESHIPS A YEAR MERELY PROVIDES FOR REPLACING THE ANTIQUATED CRAFT BUT DOES NOT IN-

Having howled "socialistic" at the municipal coal plan, the Telegraph has made the final, irrefutable argument. If it's socialistic, then nothing that might otherwise be said in its favor is of the slightest avail.

But, fortunately, a good many people in Colorado Springs are more interested in the possible saving of \$125 per ton of coal than they are in the nomenclature of the experiment.

And, despite all these gloomy predictions of loss, this city can't lose on the Thomas proposition. If Thomas fails, then he fails, and the citizens lose the chance to get \$125 coal. But the city doesn't put up a cent, and can't lose.

Again the wireless has proved a life saver. The 107 passengers and crew of the Cobuequid are added to the long list of those who owe their lives to the S. O. S.

Colorado Democrats now have a woman at the head of the state committee. She can't fail more miserably than the men to install something of honest purpose into the party.

The appointment of George Bradley as member of the state railroad commission does not promise anything for the progressive administration of that body. Bradley has been a leader of the reactionaries for years.

It didn't need the assurance of Victor Murdock for the country to know that the Progressives would, as a body, support the Alaskan government railway bill. That's a pledge of the Progressive platform.

Democrats indicate that they will follow the president's demand for an interstate trade commission, though, as they pathetically show, it was not in the Democratic platform, and it was bitterly opposed by the president during the campaign.

Having gingerly accepted the Progressive demand for an interstate trade commission, would that the Democrats might now accept the Progressive program for social justice, and really accomplish something noteworthy for those who toil!

Independent telephone men evidently don't take much stock in the Bell situation. They want government ownership, at least of long distance lines.

Having first ascertained that he is firmly held in the grasp of Uncle Sam, General Mercado demands that he be permitted to return to Mexico to exterminate those rebels.

Considering that we were assured a month ago that the mines were being operated at full capacity, the reduction in the price of bituminous coal can't be said to have been unduly hastened.

Just when college track men were wondering whether they would ever have a chance to use their track, comes an obliging chinook. Comes also, however, a prediction for more snow.

Now that women vote, a campaign to make Chicago dry has been inaugurated. Old John Barleycorn is kept on the jump these days.

The Boulder Herald thinks there is a bit of a joke in the motto adopted by John C. Shaffer of Chicago: "Colorado for Coloradans." It thinks, in view of what Shaffer and others like him really want, it should be: "Colorado for the exploiters."

Ford's brother automobile manufacturers don't look at his profit-sharing scheme kindly. Most of them intimate, and some of them flatly charge, that he's stirring up discontent among workers in other factories.

To the layman there would seem to be no reason why other manufacturers cannot follow Ford's example. But they claim Ford makes all the profits.

See our Special high grade letter file at 25 cents. Why pay more?

Cripple Creek Mines

MIDGET-BONANZA CO.
FACES FORECLOSURE?

CRIPPLE CREEK, Jan. 15.—Foreclosure proceedings have been commenced in the district court of Teller county by Henry R. Polivoght, an attorney at St. Louis, Mo., against the Midget-Bonanza Gold Mining and Milling company, a corporation, and Joseph Peters, Julius Klesler, Edward Cornet, Allen T. Latta, Peter A. Pickel, Joseph R. Obernier, John F. W. Doeppke, Herman W. Karrenbrock, Joseph Peters, Jr., John H. Hecker, Meyer, Anthony, J. J. Otto, and Hackoff, all of St. Louis, Mo., as defendants.

It is set forth in the petition, that on or about March 9, 1910, the defendant company, then heavily indebted to various parties and owning a large sum for the balance of the purchase price, and greatly distressed for money, agreed to and executed its certain promissory note for \$100,000 as authorized by the board of directors of the Midget-Bonanza Gold Mining and Milling company, payable one year after date, and bearing interest at 6 per cent per annum. The promissory note is set forth, was secured by deed of trust on the following property: The Sunny Side U. S. survey No. 2333; Midget, No. 9429; part of the New Moon, No. 9048; Protection, survey No. 11862; Bratton survey No. 18089; Maryland, survey No. 9476; part of the Alleghany, survey No. 9374; Cumberland, survey No. 9761; part of the Yellow Bird, survey No. 9383; an undivided eighth-ninth of the King Solomon, survey No. 9034; the Bonanza King lode, survey No. 8100, and that part of the Anchor and Anchor No. 3 lode mining claims in conflict with the Bonanza King No. 1901; together with all personal property of the Gold Issue Leasing company situated upon the Midget and Bonanza King mines in the Cripple Creek mining district of Teller county, Colorado.

It is further set forth in the petition that judgments have been secured in the circuit court of the Eighth judicial district at St. Louis, Mo., on September 16, 1913, by the plaintiffs, named, and it is prayed that the Midget-Bonanza Gold Mining and Milling company be ordered to pay the principal, interest and costs of suit, and that a suitable decree of foreclosure upon the said deed of trust issue, and that the defendants be forever barred from claiming any right, title and interest in and to the above described properties, except only under the legal and lawful rights of redemption as provided by the statutes of the state of Colorado, and that the said property be sold under direction of the court, and the proceeds of sale be applied, first, to payment of the costs of this proceeding, and then to the payment of the principal and interest to the plaintiffs and the balance if any to the Midget-Bonanza Gold Mining and Milling company.

Thirty-Two Public Utility

Companies, selected for the desirable investment qualities of their securities, are described in our newly prepared pamphlet. It may be had on application.

WHAT THE PRESS AGENTS SAY

MUTT AND JEFF

If favorable press criticism and large audiences are any criterion, Manager Gus Hill evidently has cornered the entire laughter market in his latest offering, "Mutt and Jeff" in Panama, and the second of the offering, which is in the nature of a melodrama, with musical-comedy trimmings, will be seen at the Opera house tonight and tomorrow. It is an entertainment on new lines with features and surprises not harbored in any other show. You are bound to laugh and hold high carnival over what Mutt and Jeff say and do, and when an author can do this, there is no gainsaying that he has accomplished the purpose he has set out to accomplish. The cast is a large and competent one and the scenic investment all that could be desired. Ten song hits are distributed and other unique novelties are promised.

"THE PINK LADY"

"The Pink Lady" returns here next Monday with all of the favorite players who have been winning so many triumphs both in this country and abroad. The cast includes Olga De Baugh, Georgia Harvey, James McElhara and Elmo Von Bostel.

The return visit of "The Pink Lady" this season has been marked by the same enthusiastic audience that welcomed her last year. Its popularity seems to grow greater and greater as the months pass by. One reason for this is the fact that Messrs. Fisher and Stevens always maintain their offerings on the same high level of excellence. That the public recognizes and appreciates this method of management is evidenced by the very large patronage which "The Pink Lady" receives everywhere.

The entire country is singing "Beautiful Lady" "The Girl by the Sea"

Intehawan, "The Kiss Waits" and "Donny Did, Donny Didn't."

PRINCESS

Women and children are particularly interested in George Kleine's mammoth photo-drama production, "The Princess" next Monday. The romantic love story that is unfolded in the charming Sienkiewicz romance, while the children appreciate its vast aid to their study of Roman history and take particular delight in the big spectacular features—the burning of Rome, the chariot races, combats of the gladiators and thrilling experience of the Christians when thrown to the hungry lions in the arena. The men seem to enjoy it as much as their wives and children. It has a wonderful appeal to all society and is doing a remarkable business.

NOTED HORSEMAN DIES

NASHVILLE, Tenn., Jan. 15.—Henry Pointer, 43 years old, merchant and bank president of Franklin, Tenn., who bred Hal Pointer, the pacer, 2,046, died today. He used the horse for saddle purposes and finally gave him to a church at Spring Hill, Tenn., to be sold and the proceeds applied to the church's building fund.

BATTLESHIP OHIO IS PREPARING TO SAIL

LEWES, Del., Jan. 15.—The United States battleship Ohio, which has been at the Delaware breakwater since Christmas day undergoing fumigation for smallpox while members of the crew have been under observation at the quarantine station near here, is being prepared for sailing.

The men are being sent back at the rate of two divisions a day. The first division was taken aboard yesterday and the entire crew will be aboard on Saturday when it is expected the vessel will steam up the Delaware river to Philadelphia, where a broken propeller will be repaired.

Three cases of smallpox which developed among members of the crew since the vessel reached here are continuing. The last case developed on the second of the month.

The disease first appeared on the Ohio the day after Thanksgiving day when the vessel was at Marellles. Before arriving here one victim was buried at sea. 20 cases, seven suspects and attendants were transferred to the detention camp at Guantanamo, Cuba, and four cases to the quarantine station at Charleston, S. C. Two of the cases transferred at Charleston are reported to have died, while three deaths are said to have occurred at Guantanamo bay detention camp.

TEMPERANCE FORCES IN ILLINOIS BUSY

CHICAGO, Jan. 15.—Confident that with the aid of women voters they will have sweeping victories at the spring primaries, temperance forces of the state are circulating petitions, calling for "wet" and "dry" elections in more than 800 cities and villages of Illinois. Nearly a score of towns were voted into the "dry" column with the aid of the suffrage vote last fall, records showing that the women favored the abolition of the saloon by a vote of nearly four to one.

MUCH MISAPPREHENSION ON NEW INCOME TAX LAW

WASHINGTON, Jan. 15.—Despite all the thousands of forms and scores of regulations issued by the treasury department concerning the manner in which the income tax is to be paid it has been unable to clear up misapprehension about the law.

Within the last few days two checks have been received at the department in payment of the tax on income withheld at the source. The tax is payable to the collector of internal revenue in the proper district and in no case the treasury forwarded the check to a collector to be returned later to Washington.

One of the surprising features was that the checks came not from individuals who might misinterpret the law without consultation with lawyers or others well informed, but from financial institutions that officials expected would know better.

With the sending out, however, of hundreds of thousands of forms to be used by individuals, the department expects shortly to receive a hundred of checks and money orders in payment of the tax. To forward this money to the proper collectors on work will be assigned to no other duties and it is estimated that at least 100 persons will take a wrong view of the law and send their money direct to Washington.

LIVESTOCK AND GAME PROTECTION URGED

Included among the resolutions passed by the Delta County Live Stock Association at a meeting held in Delta December 30 were the following:

Whereas, the state of Colorado has passed laws for the protection of all kinds of game and fish and the United States forest service is endeavoring to cooperate fully with the state of Colorado in the enforcement of the law, be it Resolved That the Delta County Live Stock Association in convention assembled hereby declare that it ap-

Uncompromising and other nations for game in Colorado. And,

"Whereas, the state of Colorado has passed laws for the protection of all kinds of game and fish and the United States forest service is endeavoring to cooperate fully with the state of Colorado in the enforcement of the law, be it

Resolved That the Delta County Live Stock Association in convention assembled hereby declare that it ap-

proves of the cooperation of the forest service with the state of Colorado and we pledge ourselves and appeal to all stockmen to assist in every practicable way in the enforcement of the same laws of the state of Colorado"

These resolutions are among the best and most valuable ever adopted by a Colorado live stock association to further cooperation with federal and state authorities in the protection of game and live stock, and it is the

Hope of forestry officials that similar action may be taken by every live stock association in the state

For war purposes both the German and French governments are experimenting with wireless-controlled torpedos boats and the British government with one the movements of which are governed by sound waves sent through water.
